Accounting Fundamental

What is accounting?

Accounting is defined as systematic, summarized recording of business transactions in the books of account. In other words, the books of your company can be treated as medical reports that shows the health of your company. To learn accounting, it is necessary to understand the fundamentals of Debits & Credits, Assets & Liabilities, and Income & Expenses to prepare & maintain accounts systematically & correctly.

What is Transactions?

Transactions means transfer of money from one party to another. For e.g., Sale of Computer, Purchase of Furniture etc.

What is Debtor?

Debtor is that person who owes money to the business on account of Credit sale of goods or advance given

What is Creditor?

Creditor is that person to whom the business owes money on account of credit purchase of goods or loan taken.

What is Asset?

Assets are the things of value owned by the business for e.g., Cash, Unsold Stock, Furniture, Building, Vehicle, Shares, and Money due from the Debtors (Customers)

What is Liabilities?

Liabilities is that sum of money which the business owes to outsiders, for e.g. Capital (Amount invested by proprietor to start the business), Loan taken from Bank, friends, relatives, money to be given to Creditors (Suppliers).

What is Capital?

The Owner of Business who have invested amount in the business to start the business i.e. Loan given by proprietor to the business. Which also mean that Capital is one of the liability of business.

What is Cash Transaction?

When assets or goods are sold on cash or purchased on cash then this transaction is known as cash transaction.

What is Credit Transaction?

When asset or goods are sold on credit or purchased on credit then this transaction is known as Credit transaction.

What is Transaction Systems?

There are two systems for recording the transaction i.e. Double entry system & Single entry system

G TEC COMPUTER EDUCATION Jain Group - Bengaluru
JGI
G-TEC JAIN EDUCATION

- A Double entry system: is based on the fact that a transaction is double-sided. If one receives something then either (1) some other person has given it or (2) stock of something else has reduced or (3) some services has been rendered. So each transaction has to be recorded in both the aspects.
- A Single entry system: is concerned with only one side of transaction, either you pay someone or you receive from someone.

What are the Rules for Recording Transactions?

Whenever any transaction takes place an accounts is either debited or credited.

The three rules for recording transactions which are as follows:

Three types of Rules for Recording Transactions.

1) Real Account 2) Personal Account 3) Nominal Account

1) Personal Account - Debit the Receiver and Credit the Giver Let Us understand the rule by means of example Suppose Ajay buys goods from Sachin. Here...

a) Ajay has received the goods b) Sachin has given the goods,

c) Ajay has to pay the price of goods d) Sachin is entitled for a credit

e) Ajay is entitled for a debit

In accounting, Ajay will be Debited & Sachin will be credited.

Later on when Ajay pays to sachin, then sachin's account will have be debited & Ajay's account has to be credited.

2) Real Account - Debit What Comes in and Credit What Goes Out: - Suppose you buy furniture for your shop on cash. Then according to above rule furniture account will be debited (as furniture comes in) and cash account will be credited (as cash goes out.)

3) Nominal Account - Debit all Expenses/ Losses and Credit all Income/Gains Suppose you hired a shop on rent then accounting as above rule, you will have to debit the Rent A/c & credit the Cash A/c

After accounts are prepared the net results of debits and credits of each account are assessed. If the total of debits are more, the balances is known as Debit Balance and if the total of credits are more, the balances is known as Credit Balance.

What is Journalizing Accounts?

It is the process of recording your day to day transactions in chronological order classified into debits & credits. In manual accounting transaction is first posted into Journal &then each accounts from journal is then posted into Ledgers.

The Journal is divided into 5 columns

Date	Particulars	LF	Debit	Credit

TEC COMPUTER EDUCATION Jain Group - Bengaluru
JGI GETEC JAIN EDUCATION

- Date : Records the date of transaction with its month & year.
- Particulars : Records the details of business transaction. A narration is also written in this Column. (Narration means detail explanation of journal entry)
- LF (Ledger Folio): Posting of each journal entries is done in ledger accounts .It is necessary that there should be certain reference to the page number of Ledger. This column contains the Page number of ledger.
    - Debit : The amount debited under a transaction.
    - Credit : The amount credited under a transaction

Note: - Under any transaction the total of debit column of the journal should be the same as that of Credit Column

Date	**Transactions**	**Amount (in Rs.)**
07-01-2021	Paid Salary by cash to typist	3,200.00
08-01-2021	Paid Rent to the land lord	5,000.00
10-01-2021	Received cash from Shriram	10,000.00
12-01-2021	Purchased Office Table for Cash	6,000.00
12-01-2021	Paid Cartage for Office Table	100.00
15-01-2021	Goods sold to Shri Agencies on Credit	50,000.00
16-01-2021	Paid Monthly installment in Sangli Bank	15,000.00
19-01-2021	Purchased Raw Material from Ganesh Traders	20,030.00

Solution: The Journal will look like

Date	**Particulars**	**Debit Rs.**	**Credit Rs.**
07-01-2021 .	Salary A/c Dr. To Cash A/c (Salary paid in cash to typist)	3,200.00	3,200.00
08-01-2021	Rent A/c Dr. To Cash A/c	5,000.00	5,000.00
10-01-2021	Cash A/c Dr. To Shriram A/c (Cash received from Shriram)	10,000.00	10,000.00
12-01-2021	Furniture A/c Dr To Cash A/c (Office Table purchased)	6,000.00	6,000.00

12-01-2021	Cartage A/c Dr. To Cash A/c (Paid Cartage for Office Table)	100.00	100.00
15-01-2021	Shri Agencies A/c Dr. To Goods A/c	50,000.00	50,000.00
16-01-2021	Sangli Bank A/c Dr. To Cash A/c (Monthly installment paid)	15,000.00	15,000.00
19-01-2021	Raw Material A/c Dr. To Ganesh Traders (Raw material purchased)	20,030.00	20,030.00

What is Cash Book?

We have seen that the company records all their transaction in the journal and then post the transactions to concerned ledger accounts from Journal.

Journal is subdivided into two parts. **Cash Book & Subsidiary Books.**

The **Subsidiary books** are Purchase Book, Purchase Return Book, Sales Book, Sales Return Book, Bills Receivable Book, and Bills Payable Book.

All cash transactions are recorded in Cash Book. Cash means notes, coins, bank drafts, cheques and postal orders. Cash transactions have two aspects i.e. Receipts & Payments. Cash Book records all cash receipts and cash payments.

Cash Book maintains proper & Systematic record of actual cash received or paid. The rule of debit and credit is same as before "Debit what comes in and credit what goes out", that is why receipts are recorded at the debit side and payments are recorded on the credit side.

E g.: Enter the following transactions in a simple Cash Book.

Date	Transactions	Amount (in Rs.)
08-04-2021	Cash in Hand	50,000.00
10-04-2021	Cash received from Shubham	5000.00
12-04-2021	Paid Rent by Cash	10,000.00
15-04-2021	Sold goods by Cash	3,000.00
17-04-2021	Cash Paid to Krishna	1,000.00
20-04-2021	Purchased Furniture by Cash	5,000.00
31-01-2021	Paid Salaries by Cash	10,000.00

What is Ledger Account?

The proprietor of the business expects from accounting to let him know the position of individual debtor (customer) and creditors (supplier) account. In Ledger individual parties account is prepared separately. So the Ledger can be defined as Collection of required information concerning a particular account and presenting them under one head is known as Ledger posting. For ex. We may purchase goods from Ram, we may sell goods to him or return goods to him or goods may be returned by Ram. In the same way, we may receive payment from Ram or may pay him. All these transaction regarding dealing with Ram must have been recorded in different books i.e. Cash book, Purchase book or Return book. Recording transaction in different books concerning Ram doesn't present the true picture of Ram's A/c.

We are not in position to verify whether Ram is a debtor or creditor. So each & every dealing with Ram should also be presented under one heading i.e. Ram's A/c. This Ram's A/c is called as ledger Account which shows the position at a glance. All the information regarding a particular account is collected from different subsidiary books and presented under one heading knows as the Ledger Account.

Ledger Account Format

Debit Credit

(Dr) (Cr)

Date	Particulars	Folio	Amount	Date	Particulars	Folio	Amount

The ledger account is divided in two parts.

1) The left hand side is Debit side (Dr)

2) The right hand side is credit side.(Cr)

Each side is again divided into four sections namely

a) Date: -In this columns the date of transaction is recorded. It is first recorded in the Journal book & then brought to the ledger account.
b) Particulars: - In this columns the name of account in which the corresponding debit or credit is found is recorded.
c) Folio: - This column works as reference. Here the Journal page no. of the account is being written
d) Amount:- Amount with which the account is debited or credited is entered in this column

Date	Transactions	Amount (in Rs.)
02-02-2021	Sold goods to Ram on cash	50,000.00
04-02-2021	Received cash from Ram	4,000.00
06-02-2021	Bought goods on cash	10,000.00
08-02-2021	Paid cartage exp.by cash	100.00
10-02-2021	Goods returned from Ram	1,000.00
12-02-2021	Sold Goods to Rahul on Credit	2,000.00
15-02-2021	Received cash from Rahul	1,500.00

GTEC JAIN EDUCATION

What is Balance on an Account?

The balance on an account is the difference between the total of the debit side and the total of the credit side. If the totals on the two sides of an account are equal, the account is said to be squared up and there is no balance left to debit or credit by the end of the period. If the debit side total of an account is greater than the credit side, the balance is termed as Debit Balance, otherwise it is termed as the Credit Balance, and the balance of an account ascertained on the end of a period is termed as the Closing Balance of the account. If the account is real (related to assets) or personal (related to persons), the closing balance is carried down to the succeeding period as an Opening Balance but if the account is nominal (related to expenses, losses and income)such balance is transferred to Profit and Loss account.

If the balance is a debit balance it is carried down (C/d) or carried forward (C/f) to the succeeding period as "To balance b/d (brought down)" on the debit side of the account. On the other side if the balance is a credit balance then it is brought to the credit side of the account as “By balance b/d (brought down)".

What is Trial Balance?

At the end of an accounting period all the accounts are balanced and the balances listed. The total on both the sides of this, called the Trial Balance. Because of the duality concept every debit should have a credit and vice versa. Thus the trial balance is an arithmetic check that all the double entries have been completed, however, it will not detect errors such as the posting of a debit to the wrong account. Before we venture into the details of trial balance calculations, let us look at how a statement of balances is prepared with debit and credit columns. Debit Balances of ledger accounts are entered in the debit column of the statement and credit balances of ledger accounts are entered in the credit column of the statement. The totals of these columns are matched, if they are equal then the calculations are correct, else there is a mistake in calculations.

What is Trading & Profit & Loss Account?

Every firm likes to measure the performance of its business operations in terms of profit and loss it also likes to know the values of its assets and liabilities on the closing date of accounting period. In order to ascertain its income and also the assess the position of assets and liabilities, financial statements are prepared. The traditional name for financial statements is 'Financial Account'.

Financial statements are divided in two parts, income statements and position statements. The term income statement is traditionally known as Trading and Profit & Loss account and position statement is known as Balance Sheet.

The trading & profit & loss account can be described in simplest possible terms as an account in which the profit or loss for an accounting period is computed. The trading and profit & loss account is often referred to as the profit and loss account (the P&L) or the income statement. The income for the period has to be compared with, or matched against, the expenditure for that period involved in generating the income and the profit is difference between income and expenditure.

While calculating the cost of goods sold we add direct expenses to the opening stock and purchases.

Direct expenses consist of expenses incurred in acquiring and manufacturing goods. These expenses are divided into two categories as shown below:

Expenses on Purchasing Goods:

- Carriage, Cartage
- Freight Inward
- Octroi and Local taxes
- Excise duty
- Import duty, Landing and Dearing Charges

Expenses on Manufacturing Goods:

- Coal, gas, Water and Other fuel
- Wages
- Manufacturing Expenses
- Factory Expenses
- Storage Charges

Illustration: Calculate Gross Profit from the following information

Particulars	
Opening Stock	25,000.00
Purchases	5,000.00
Sales	50,000.00
Salaries	500.00
Fuel	2,000.00
Closing Stock	5,000.00
Purchases returned	2,000.00
Sales returned	1,000.00
Carriage	1,500.00
Octroi	500.00

Solution

Direct Expenses = Fuel + Carriage + Octroi

4.000 = 2,000 + 1,500 + 500

Net Purchases = Purchase - Purchases Returned

3.000 = 5000 - 2000

Net Sales

49.000 = 50000 - 1000

Cost of Goods= Opening Stock + Net Purchases - Direct expenses - Closing stock

27.000 25000 + 3000 + 4000 - 5000

Gross Profit Net Sales - Cost of goods

22.000 49000 - 27000

Calculate Gross Profit from the following information

Particulars	Amount (in Rs.)
Opening Stock	65,000.00
Sales A/c	95,000.00
Purchases Return	5,000.00
Royalty A/c	15,000.00
Fuel	2,000.00
Wages	3,000.00
Sales Return	1,000.00
Purchase A/c	10,000.00
Closing Stock	(31st Mar 2021)

To Purchase 10,000.00			94,000.00
Less Return 5,000.00			
	5,000.00		
		By Closing Stock	5,000.00
To Fuel	2,000.00		
To Wages	3,000.00		
To Royalty	15,000.00		
To Gross Profit			
(Transferred to Profit & Loss A/c)	9,000.00		
Total	99,000.00		99,000.00

What is Profit & Loss Account?

Profit & Loss Account is prepared to calculate the net profit or net loss of the business for a given accounting period. The profit & loss account start with the credit from the trading account in respect of gross profit (or debit if there is gross loss). There after all those indirect expenses or losses which have not been debited to the trading account are debited to the profit & loss account. Indirect expenses include all administrative, selling and distribution expenses such as salaries, rent, taxes, postage, stationary, interest paid, electricity bill, advertising or any other incomes or gains besides gross profit, they will also be transferred to the credit side of the profit & loss account. The difference of the two sides of this account is either net profit or net loss. If the total of credit side is greater than the total of the debit side, the different represents **Net Profit.** On the other hand if the total of depict side exceeds the profit or net loss is transferred to the capital account of the proprietor. Net profit increases the capital whereas net loss decreases the capital. The expenses or charges that are taken to the debit side of profit & loss account are generally classified into three categories:

i) Selling Expenses such as Rent of Office Premises, Advertising Expenses, Travelling Allowance, Commission etc.

ii) Distributive expenses such as packing charges, vehicle maintenance, outward cartage etc.
Administrative expenses such as staff salary, electricity bill and other office expenses.

The income or profit that are taken to the credit of profit & loss account are generally classified into following categories:

A) Dividend Received
B) Interest Earned
C) Discount and commission Received.

What is closing entries in respect of Profit & Loss Account?

The entries that have to be made in the Journal for preparing the trading account and Profit & Loss account are known as **Closing Entries.** Follow the step mentioned below to make the necessary entries

i) In order to close the accounts of expenses or losses, debit the profit and loss account and credit the corresponding expenses account. This entry will close all the expenses account in the ledger.

ii) In order to close the accounts of income or profit, debit the corresponding income account and credit the profit & loss account. This entry will close the income account in the ledger.

iii) In order to transfer the balance of profit & loss account, debit the profit & loss account and credit the capital account if there is not profit, otherwise credit the profit & loss account and debit the capital account.

All Balance On an Account

The Balance on an account is the different between the total of the debit side and the total of the credit side. If the totals on the two sides of an account are equal, the account is said to be squared up and there is no balance left to debit or credit by the end of the period.

If the totals on the two sides of an account are unequal then the debit side of an account will be greater or the credit side will be greater.

If the debit side total of an account is greater than the credit side, the balance is known as **Debit Balance,** otherwise it is known as **Credit Balance.**

The balance of an account at the end of the period is termed as the **Closing Balance of the Account.**

If the account is real (related to assets or) personal (related to person), the closing balance is **carried** down to the succeeding period as on opening balance but if the account is nominal (related to expenses, losses and income) such balance is transferred to Profit & Loss Account.

If the balance is a debit balance it is carried down (c/d) or carried forward (c/f) to the succeeding period as "To balance b/d (brought down)" on the debit side of the account. On the other side if the balance is credit balance then it is brought to the credit side of the account as "By balance b/d (brought down)".

What is Tally Prime?

Tally Prime is the new-age business management software from the house of Tally which is sure to delight you. Simplicity, speed, flexibility, and reliability are a trademark of Tally products and with Tally Prime you will experience them at a whole new level.

What makes Tally Prime a delightful experience?

Your business is continuously evolving. With every passing day, there are developments with the people you deal with, the people that work for you, the norms that you need to comply with and generally the way of doing business. In such an ever-changing business environment, it is important that your trusted business partner also evolves to simplify your life further while allowing you to focus on your constant goal – growing your business through simple to use and delightful technology products that are aimed at increasing efficiency in business management.

In our constant endeavour of doing so, we have revisited every area of our product, analysed how we can deliver the simplest experience possible and made it come alive with…

- Simplicity at a whole new level with an amazing and easy user experience so that your work gets done faster
- Ultra-flexible and intuitive design so you can get more out of the software and take full advantage of it
- A refreshing look and feel that will surely delight you
- Easy to learn and use
- Enhanced user and feature-based security for restricted and trusted business data access

EDUCATION Jain Group - Bengaluru

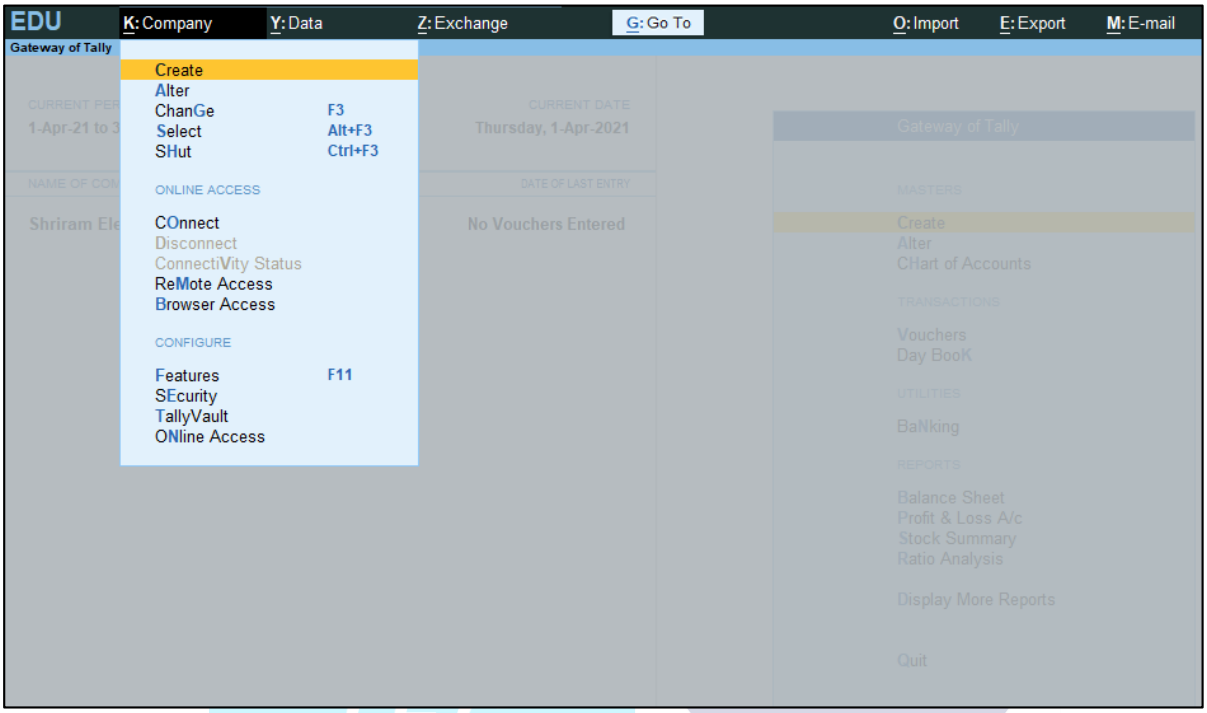

Tally Prime has been designed in a way that you will rarely need any support or help in running the product as per your needs. Experience Tally Prime to truly feel its power and transform your business with improved efficiency.

- Tally Vault Password (If any):-Tally Vault is an enhanced security system, which allows for encryption of the company data. Encryption involves converting normally accessible tally information into unrecognizable information, which can only be reconverted by authorized persons.
- Use Security Control:-Set this to **Yes,** if you want to initiate a password-protected system to control access to Tally Prime data. Else, set this to **No**
- Name of Administrator, Password, and Repeat Password:-Assuming the Tally Vault Password and Use Security Control is Set to **yes** enter the Name of Administrator, Password and Repeat in the respective fields.
- Use Tally Audit Feature?-Tally Audit allows the administrator or an auditor profile user to track changes in accounting information. If you wish to use this facility, Select **Yes.** Tally Audit will be available only to the administrator/ auditor, through Display of Statements of Accounts. For more information refer Data Management in Tally. Prime
- Disallow opening in Educational mode?-Set this option to **Yes,** if you don't want the company to be opened in Educational mode of Tally Prime. Else, Set this to **No.**
- Base Currency Information (T):-The currency symbol given earlier in the Company Creation screen is displayed here automatically. Tally Prime uses this currency symbol in reports, wherever necessary.
- Formal Name:-Formal Name is the full name of the currency specified. The Formal Name for the base currency is set to Indian Rupees for Indian Companies.
- Suffix Symbol to amount:-For countries, which specify the symbol after the amount (value)- this facility is provided. For example, Yen is specified after the amount (1000 Yen) unlike in India where the symbol is specified before the amount (Rs.1000)
- Add space between Amounts and Symbol:-This facility is provided to users who require a space between the amount and the symbol. However, putting a space between the amount and symbol could give an opportunity for misuse in case of cheque printing. Hence, the flexibility to turn this option on and off as required is provided.
- Show Amounts in Millions:-This is useful for companies, which require reporting the financial statements in millions. This is possible only if **Allow Multi-Currency** is enabled in **Fll: Accounting Features.**
- Number of Decimal Places:-You can specify a value from 0 to 4 to denote the fractional part of the currency. The default value for this option is 2.
- Word representing Amt after decimal:-Enter the symbol for decimal portion, i.e. **Paisa**
- No. of Decimal Places for Amount in Words:-You can specify the number of decimal places for printing the amount in words. This number should be equal to or lesser than the number specified in Number of Decimal places field in company creation or currency master screen which will appear in Invoice and Cheque printing screen. For example, if the currency is expressed up to 3 decimal places, the numeric to be printed in words can be restricted to 2 decimal places.
- Accept? Yes or No:-If you press **'Y'** or **Enter** than Tally will save all information you have entered.

How to Alter A Company?

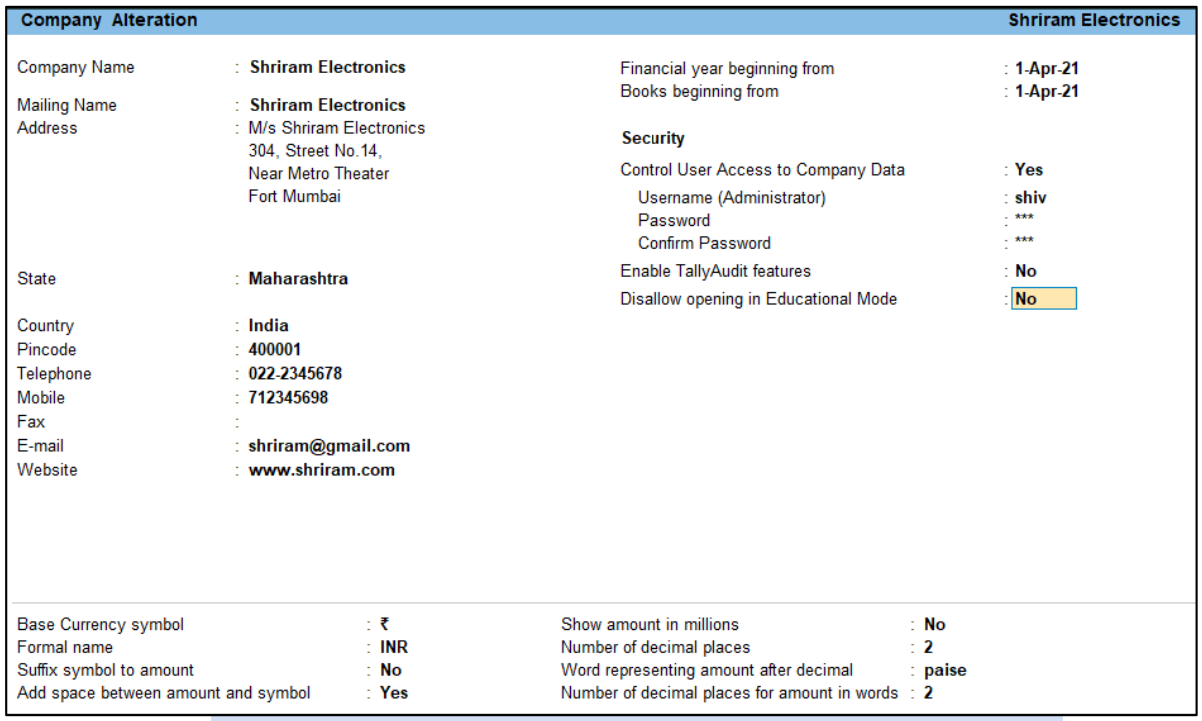

If you want to make any changes in the company creations then you have to alter the company.

How to Alter a Company?

Modify Company & Activate Security Control Option as shown in following screen

- Gateway of Tally > Alt + K (Company Info.) > Alter > Enter > M/s. SHRIRAM ELECTRONICS
- Tab down to Use Security Control option and Set it to "Yes"
- Type in the Name of Administrator : shiv and type the Password : shivl23

The moment you press Enter to save the Alteration Screen, tally prompts you to enter the "Name of the User and password".

E D U C A T I O N

How to Shut the Company?

- From the Gateway of Tally Press Alt + k to display Company Info
- Select Shut Company option which will display the list of companies.
- Select the Company name from the list which you want to Close / Shut.

Pre-Defined Group in tally

Tally provides a set of 28 predefined groups. Of these, 15 are Primary Groups and 13 are Sub-groups or Children. When you create the company by default the 2 ledger accounts are opened they are Cash and Profit & Loss A/c so no need to create the ledger again.

- Branch & Division:-This is a primary group which is used to keep the names of all companies which may be branches, division, sister concerns, subsidiaries of the existing company.
- Capital Account:-This is a Primary group. You can open ledger accounts like Partners Capita! A/c. Proprietors Capital A/c, Share Capital A/c.
- Reserves and Surplus:-This is a Subgroup, you can open ledger accounts like Investment Allowance Reserve, General Ledger & other such reserve accounts.
- Current Assets:-This is a primary group. All the Assets of the company can be placed under this head. This group has 6 subgroups under it. You can place all your Assets under these sub-groups.
- Bank Accounts:-This sub-group comes under Current Asset &you can open saving/current accounts and all other accounts of banks.
- Cash-in-hand:-This sub-group comes under current Asset & you can open ledger account of cash. Tally by default opens one Cash a/c under this group. When you can create the new Company
- Deposits (Assets):-This sub-group comes under current Asset & you can open ledger accounts like security deposits, fixed Deposits, rental deposits and all other such deposits made by the company.
- Loans and Advances:-This sub-group comes under Current Asset & you can open ledger accounts like loans & advances of non -trading nature. Ex. Advances against salaries, work contracts etc.
- Stock-in-hand:-This subgroup comes under Current Asset and you can open ledger accounts like raw materials, finished goods and work in progress.
- Sundry Debtors:-This subgroup comes under Current Asset and you can open ledger accounts such as goods sold on credit (Customer a/c)
- Current liabilities:-This is a primary group & you can open ledger accounts which are outstanding & liabilities of the company. For ex. PF, TDS etc.
- Duties & Taxes:-You can open ledger accounts like Excise, Local Sales tax, central Sales Tax, VAT, MODVAT etc.
- Provision:-You can open ledger accounts that is used to hold other tax provisions like income tax, Audit fees, Legal fees etc.
- Sundry Creditors:-You can open ledger accounts of trade creditors of the company ex. Supplier (goods purchased on credit)
- Direct Income [Income Direct]:-You can open ledger accounts of non-trade income accounts that affects gross profit. For e.g. Suppose your business is of computer hardware, then all your sales of computer would go under sales Account but the account of annual maintenance charges that follows sales of computer would fall under this group
- Direct Expenses [Expenses Indirect]:-You can open ledger account of those expenses that are done on Purchase of goods of company &that directly affects its gross profit. For e.g. Hamali, transportation, goods inward charges, octroi etc.
- Fixed Assets:-This is a primary group, you can open ledger account such as furniture, Vehicle, building, machinery of the company.
- Indirect Income [Income Indirect]:-You can open ledger accounts such as Income from rent, Interest, commissions received etc.

G-TEC COMPUTER EDUCATION Jain Group - Bengaluru
G-TEC JAIN EDUCATION

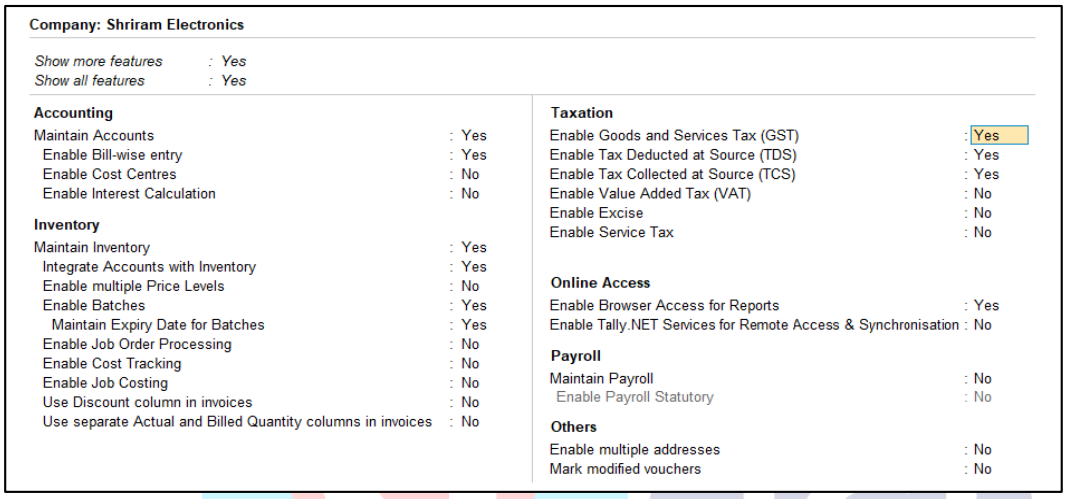

- Indirect Expenses [Expenses Indirect]:-You can open ledger account of those expenses that are done on Sales of goods & that directly affects its Profit& Loss A/c: For e.g. salary shop rent, advertisement, postage, printing & stationary, electric bill, telephone bill etc.
- Investments:-This is a primary group & can open ledger accounts such as shares, LIC, bonds, and other securities and investments made by the company.
- Loans (liability):-This is primary group & can open ledger account such as loan taken by the company. This group is divided into 3 sub- groups which are as follows.
- Bank OCC A/c:-You can open ledger account under this group are All Overdraft accounts with banks like, hypothecation account, C.C A/c etc.
- Secured Loans:-You can open ledger accounts such as long/medium term loans taken by the company from financial corporations, banks etc. against its fixed assets
- Unsecured loans:-You can open ledger account where the company has taken loans unconditionally. For ex. Loan taken from friends, relatives, directors, partners, other securities and investments made by the company.
- Purchase Account:-This is a primary group & open ledger accounts of all purchase account of the company.
- Misc. Expenses (Asset):-It is rarely used primary group. The loss of company which has not been written-off but carried forward to the next year, however treats it as a negative profit and carries it to profit and loss account.
- Sales Account:-This is a primary group & open ledger accounts of all Goods sales account of the Company.
- Suspense Account:-A suspense ledger a/c is opened which keeps track of money received or paid by the company, whose nature of transaction is not yet known for Ex. Money paid as traveling advance, the details of which will only be known after the submission of TA bill.

Accounting With Tally Using Inventory

Inventory accounting includes recording of stock details, the purchase of stock, the sale of stock, stock movement between godowns, Stock summary.

Activate Following Options in F11 Features

Gateway of Tally > F11 Company Features > Select Accounting Feature & Press Enter When 'Integrate Accounts and Inventory option' is set to ' Yes ', the Tally reflects the closing Stock value from the inventory system in the Profit & Loss account.

Stock Groups: -All stock items can be classified into stock groups, which helps for easy location and reporting of stock statements. For ex. Suppose Your business is of Computer Hardware & you are having stock items like Logitech keyboard, TVSE Keyboard, Microsoft Keyboard, Amkette Keyboard, Logitech Mouse, Genius mouse etc. Then you can classify all Logitech products under the stock group Logitech. This will provide you the details of all Logitech products classification.

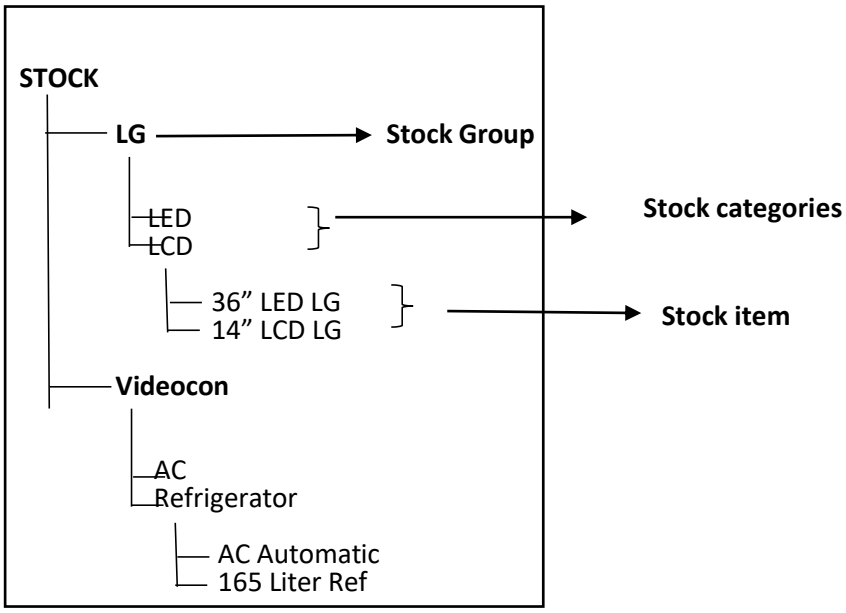

Stock Categories:-You can classify items in your stock into stock categories. There are many stock items that are under different stock groups, but similar in nature or behavior. You can again classify them in one stock category, for example, in the previous ex. you can select Logitech keyboard, Microsoft keyboard, TVSE keyboard & Amkete keyboard & place them under a category keyboard. This will provide the complete information about your total stock of keyboards.

Stock Item:-Stock Items are the actual Items in stock, which is required to be accounted and needs to be created.

Godowns:-Under this option you can give the details about godowns, warehouse or any other storage area.

Units of Measure:-The various unit of measures for stock items can be created. There can be simple units such as no’s, meters, kilograms, pieces, or compound units egg. Box of 10 piecesFlow Chart of Stock Item

Tally Voucher

Accounting details in Vouchers

Tally is pre-programmed with a variety of accounting vouchers, each designed to perform a different job. The standard vouchers are:

- **Accounting Vouchers**

(F4)	Contra Voucher	• (F5)	Payment Voucher
(F6)	Receipt Voucher	• (F7)	Journal Voucher
(Ctrl+F8)	Credit Note Voucher	• (F8)	Sales Voucher
(Ctrl + F9)	Debit Note Voucher	• (F9)	Purchase Voucher
(F10)	Reversing Journal Voucher	• (Ctrl+FI 0)	Memorandum Voucher

- **Inventory Vouchers**

(Alt+F4)	Purchase Order	• (Alt+F6)	Rejection Out
(Alt+F5)	Sales Order	• (Alt+F7)	StockJournal
(Ctrl + F6)	Rejection In	• (Alt+F9)	Receipt Note
(Alt+F8)	Delivery Note	• (Alt+FlO)	Physicals Stock

- **Contra (F4) :**
  In this type of voucher all the entries related with Cash & Bank accounts are entered, for e.g.
  a. Cash deposited in bank
  b. Cash withdrawal from bank
  c. Bank to Bank transfer.

For eg. A) Cash Rs.1000/- Deposited in Dena Bank

Particulars	Debit	Credit
Dena Bank A/c	1,000.00	
To Cash A/c		1,000.00

b) Withdrawal Cash Rs. 500/- from Dena Bank

Particulars	Debit	Credit
Cash A/c	500.00	
To Dena Bank		500.00

c) Cheque of Dena Bank Rs. 100/- Deposited in Central Bank

Particulars	Debit	Credit
Central Bank	100.00	
To Dena Bank		100.00

Payment (F5) :

In this type of vouchers all the entries related with **Cash Purchase, Cash Payments, Bank Payments** are entered, For Example

a) Goods purchased on cash
b) Salary Rs. 500/- given to Raju.
c) Advertisement exp. Rs.150/- paid by cash
d) Paid Shop rent Rs. 500/- by cheque,
e) Cheque of Rs. 1000/- given to Creditors. (Suppliers)

Particulars	Debit	Credit
Ledger A/c Paid to	Amount	
Cash/Bank Accounts		Amount

Receipt (F6) :

In this type of voucher entries related with Cash Sales, Cash Receipts, Bank Receipts are entered, for eg.

a) Goods sold on cash
b) Cash Rs.500/- received from customer
c) Cheque of Rs. 1000/- received from customer.

The entries will be in the following form

Particular	**Debit**	**Credit**
Ledger A/c received from	Amount	
Cash/Bank Accounts		Amount

Journal(F7):

In this type of voucher all the entries related with two parties are entered i.e. all the adjustment entries, closing entries at the end of the year are entered In journal Voucher

(For eg. party to Party transfer, Depreciation entries, Provision entries etc.)

When you Set the Option ' **Use Debit/Credit Notes'** in **F11**: **Features** > **Inventory Features** to **'Yes'** then in the Journal \

Voucher the new two Options **Debit Note & Credit Note** vouchers are activated.

- Credit Note :

When a customer returns some goods that had been sold to him (**Sales Return**) then the credit note is given to the customer passing the entry as follows

Particular	**Debit**	**Credit**
Sales Return A/c	Amount	
Party A/c		Amount

Debit Note:

when you have short-billed a customer by mistake, then a Debit note is given to the customer passing the entry as follows

Particulars	**Debit**	**Credit**
Party A/c	Amount	
Purchase A/c		Amount

- Sales Voucher (F8) :

In this type of voucher entries related with only **Credit Sales** is entered The sale entry will look like as follows

Particulars	Debit	Credit
customer A/c	Amount	
sales A/c		Amount

You can also add the following details in the entry

Particulars	Debit	Credit
Customer A/c	Total Bill Amt	
To Sales A/c		Net sales Amt
To Duty/Tax		Tax Amt
To Packing Charges		Expenses Amt
To Discount		Discount Amt

- Purchase Voucher (F9) :

In this type of voucher, entries related with only **Credit purchase** is entered . The purchase entry will look like as follows

Particulars	Debit	Credit
Purchase a/c	Amount	
Supplier A/c		Amount

COMPUTER EDUCATION Jain Group - Bengaluru

- **Memo Voucher (F1O) :**

This is **non-accounting** voucher and the entries made using it will not affect your account.

- **Post Dated Voucher :**

We can pass any of the above-discussed vouchers for a future date. On that date, these vouchers will become regular voucher. In order to pass a post-dated voucher, select any voucher and press the <Ctrl> + <T> key combination and use the <F2> key to enter the desired date. The word 'Post-Dated' now appears on the voucher screen. Post-dated voucher are very useful to keep track of post-dated cheques you issue or receive.

- **Optional Voucher:**

Optional voucher is another 'non-accounting' voucher but it is not same as the memo voucher, in the sense that it is not a separate voucher type. You can make an existing voucher as optional by pressing <Ctrl> + <L> key combination. By making it 'Optional' the voucher doesn't get posted anywhere but remains in the optional registers. When you are viewing a report (like Balance Sheet) ask for the report with the optional voucher. Now you will be able to see the effect of this voucher on the screen. This voucher effect the report only temporarily (as long as you are viewing the report). The moment you quit the report, it removes this voucher from the report and the next time you view the report, it will be only the regular vouchers.

Introduction to GST

- **What is Goods and Service Tax (GST)?**

It is a destination based tax on consumption of goods and services. It is proposed to be levied at all stages right from manufacture up to final consumption with credit of taxes paid at previous stages available as setoff. In a nutshell, only value addition will be taxed and burden of tax is to be borne by the final consumer.

- **What are GST rate slabs?**

The Goods and Services Tax (GST) will be levied at multiple rates ranging from 0 per cent to 28 per cent. GST Council finalized a four-tier GST tax structure of 5%, 12%, 18% and 28%, with lower rates for essential items and the highest for luxury and de-merits goods that would also attract an additional cess.

Service Tax will go up from 15% to 18%. The services being taxed at lower rates, owing to the provision of abatement, such as train tickets, will fall in the lower slabs.

In order to control inflation, essential items including food, which presently constitute roughly half of the consumer inflation basket, will be taxed at zero rate.

The lowest rate of 5% would be for common use items. There would be two standard rates of 12 per cent and 18 per cent, which would fall on the bulk of the goods and services. This includes fast-moving consumer goods.

Highest tax slab will be applicable to items which are currently taxed at 30-31% (excise duty plus VAT).

Ultra luxuries, demerit and sin goods (like tobacco and aerated drinks), will attract a cess for a period of five years on top of the 28 percent GST.

The collection from this cess as well as that of the clean energy cess would create a revenue pool which would be used for compensating states for any loss of revenue during the first five years of implementation of GST.

Finance minister said that the cess would be lapsable after five years.

The structure to agreed is a compromise to accommodate demand for highest tax rate of 40% by states like Kerala. While the Centre proposed to levy a 4% GST on gold but the final decision on this was put off. During a press conference, finance minister Mr. Jaitley said, "GST rate on gold will be finalized after the fitting to the approved rates structure of all items is completed and there is some idea of revenue projections".

The principle for determining the rate on each item will be to levy and collect the GST at the rate slab closest to the current tax incidence on it.

The GST will subsume the multitude of cesses currently in place, including the Swachh Bharat Cess, the Krishi Kalyan Cess and the Education Cess. Only the Clean Environment Cess is being retained, revenues from which will also fund the compensations.

IEC COMPUTER EDUCATION Jain Group - Bengaluru
G-TEC-JAIN EDUCATION

- **Which of the existing taxes are proposed to be subsumed under GST?**

GST is set to replace various taxes as mentioned below:

Taxes currently levied and collected by the Centre	**State taxes that would be subsumed under the GST**
a. Central Excise duty	a. State VAT
b.Duties of Excise (Medicinal and Toilet Preparations)	b. Central Sales Tax
c. Additional Duties of Excise (Goods of Special Importance)	c. Luxury Tax
d. Additional Duties of Excise (Textiles and Textile Products)	d. Entry Tax (all forms)
e. Additional Duties of Customs (commonly known as CVD)	e.Entertainment and Amusement Tax (except when levied by the local bodies)
f. Special Additional Duty of Customs (SAD)	f. Taxes on advertisements
g. Service Tax	g. Purchase Tax
h. Central Surcharges and Cesses so far as they relate to supply of goods and services	h. Taxes on lotteries, betting and gambling
	I. State Surcharges and Cesses so far as they relate to supply of goods and services

The GST Council shall make recommendations to the Union and States on the taxes, cesses and surcharges levied by the Centre, the States and the local bodies which may be subsumed in the GST.

- **What will be status of Tobacco and Tobacco products under the GST regime?**

Tobacco and tobacco products would be subject to GST. In addition, the Centre would have the power to levy Central Excise duty on these products.

Commodities Proposed to be kept outside GST	Alcohol for human consumption, Petroleum Products viz. petroleum crud, motor spirit (petrol), high speed diesel, natural gas and aviation turbine fuel & Electricity.
Taxation of such Commodities in GST Regime	The existing taxation system (VAT & Central Excise) will continue in respect of the above commodities.

- **What type of GST is proposed to be implemented?**

It would be a dual GST with the Centre and States simultaneously levying it on a common tax base. The GST to be levied by the Centre on intra-State supply of goods and/or services would be called the Central GST (CGST) and that to be levied by the States would be called the State GST (SGST). Similarly Integrated GST (IGST) will be levied and administered by Centre on every inter-state supply of goods and services.

TEC COMPUTER EDUCATION Jain Group - Bengaluru G-TEC JAIN

- **Which authority will levy and administer GST?**

  Centre will levy and administer CGST & IGST while respective states will levy and administer SGST.

- **How a particular transaction of goods and services would be taxed simultaneously under Central GST (CGST) and State GST (SGST) ?**

The Central GST and the State GST would be levied simultaneously on every transaction of supply of goods and services except the exempted goods and services, goods which are outside the purview of GST and the transactions which are below the prescribed threshold limits. Further, 8 both would be levied on the same price or value unlike State VAT which is levied on the value of the goods inclusive of CENVAT. While the location of the supplier and the recipient within the country is immaterial for the purpose of CGST, SGST would be chargeable only when the supplier and the recipient are both located within the State.

Illustration I: Suppose the rate of CGST is 10% and that of SGST is 10%. When a wholesale dealer of steel in Uttar Pradesh supplies steel bars and rods to a construction company which is also located within the same State for, say Rs. 100, the dealer would charge CGST of Rs. 10 and SGST of Rs. 10 in addition to the basic price of the goods.

He would be required to deposit the CGST component into a Central Government account while the SGST portion into the account of the concerned State Government. Of course, he need not actually pay Rs. 20 (Rs.10 + Rs. 10) in cash as he would be entitled to set-off this liability against the CGSt or SGST paid on his purchases (say, inputs). But for paying CGST he would be allowed to use only the credit of CGST paid on his purchases while for SGST he can utilize the credit of SGST alone.

In other words, CGST credit cannot, in general, be used for payment of SGST. Nor can SGST credit be used for payment of CGST.

Illustration II: Suppose, again the rate of CGST is 10% and that of SGST is 10%. When an advertising company located in Mumbai supplies advertising services to a company manufacturing soap also located within the State of Maharashtra for, let us say Rs. 100, the ad company would charge CGST ofRs. 10 as well as SGST ofRs. 10 to the basic valu£ of the service. He would be required to deposit the CGST component into a Central Government account while the SGST portion into the account of the concerned State Government. Of course, he need not again actually pay Rs. 20 (Rs. 10+Rs. 10) in cash as it would be entitled to set-off this liability against the CGST or SGST paid on his purchase (say, of inputs such as stationery, office equipment, services of an artist etc). But for paying CGST he would be allowed to use only the credit of CGST paid on its purchase while for SGST he can utilise the credit of SGST alone.

In other words, CGST credit cannot, in general, be used for payment of SGST. Nor can SGST credit be used for payment of CGST.

- **What is IGST?**

Under the GST regime, an Integrated GST (IGST) would be levied and collected by the Centre

JGI COMPUTER EDUCATION Jain Group - Bengaluru GETTS JAIN

on inter-State supply of goods and services. Under Article 269A of the Constitution, the GST on supplies in the course of inter-State trade or commerce shall be levied and collected by the Government of India and such tax shall be apportioned between the Union and the States in the manner as may be provided by Parliament by law on the recommendations of the Goods and Services Tax Council.

- **How GST returns will be filed?**

For properly updating the invoices, Indian taxpayers and businesses have to file certain returns with the Government. These returns have to be mandatorily filed as any non-compliance towards the same may lead to disallowance of input tax credit, apart from attracting penalties and interests, etc. Proper filing of information and passing the same in the returns is a mandatory process for smooth flow of credit to the last recipient.

The returns have been designed so that all transactions are in sync with each other and that no transaction is left unattended between the buyer and the seller. All the data is stored in GSTN, which can be accessed by the users/taxpayers anytime online.

Depending on the type of GST registration (Regular, Composite, etc) businesses will need to file up to 37 GST returns every year. These returns can be filed using any Tally Software.

- **What would be the role of GST Council?**

A GST Council would be constituted comprising the Union Finance Minister (who will be the Chairman of the Council), the Minister of State (Revenue) and the State Finance/Taxation Ministers to make recommendations to the Union and the States on.

1. The taxes, cesses and surcharges levied by the Centre, the States and the local bodies which may be subsumed under GST;
2. The goods and services that may be subjected to or exempted from the GST;
3. The date on which the GST shall be levied on petroleum crude, high speed diesel, motor sprit (commonly known as petrol), natural gas and aviation turbine fuel;
4. Model GST laws, principles of levy, apportionment of IGST and the principles that govern the place of supply;
5. The threshold limit of turnover below which the goods and services may be exempted from GST;
6. The rates including floor rates with bands of GST;
7. Any special rate or rates for a specified period to raise additional resources during any natural calamity or disaster;
8. Special provision with respect to the North- East States, J&K, Himachal Pradesh and Uttarakhand; and
9. Any other matter relating to the GST, as the Council may decide.

- **Who is liable to pay GST under the proposed GST regime?**

Under the GST regime, tax is payable by the taxable person on the supply of goods and/or services. Liability to pay tax arises when the taxable person crosses the threshold exemption, i.e. Rs.10 lakhs (Rs. 5 lakhs for NE States) except in certain specified cases where the taxable person is liable to pay GST even though he has not crossed the threshold limit. The CGST / SGST is payable on all intra-State supply of goods and/or services and IGST is payable on all inter- State supply of goods and/or services. The CGST /SGST and IGST are payable at the rates specified in the Schedules to the respective Acts.

- **What are the benefits available to small tax payers under the GST regime?**

Tax payers with an aggregate turnover in a financial year up to [Rs.10 lakhs] would be exempt from tax.

[Aggregate turnover shall include the aggregate value of all taxable and non-taxable supplies, exempt supplies and exports of goods and/or services and exclude taxes viz.GST.]

Aggregate turnover shall be computed on all India basis. For NE States and Sikkim, the exemption threshold shall be [Rs. 5 lakhs]. All taxpayers eligible for threshold exemption will have the option of paying tax with input tax credit (ITC) benefits. Tax payers making inter-State supplies or paying tax on reverse charge basis shall not be eligible for threshold exemption.

- **How will the goods and services be classified under GST regime? What is HSN under GST?**

HSN (Harmonized System of Nomenclature) code shall be used for classifying the goods under the GST regime. Taxpayers whose turnover is above Rs. 1.5 crores but below Rs. 5 crores shall use 2 digit code and the taxpayers whose turnover is Rs. 5 crores and above shall use 4 digit code. Taxpayers whose turnover is below Rs. 1.5 crores are not required to mention HSN Code in their invoices. Services will be classified as per the Services Accounting Code (SAC).

Read about HSN and SAC.

- **How will imports be taxed under GST?**

Imports of Goods and Services will be treated as inter-state supplies and IGST will be levied on import of goods and services into the country. The incidence of tax will follow the destination principle and the tax revenue in case of SGST will accrue to the State where the imported goods and services are consumed. Full and complete set-off 14 will be available on the GST paid on import on goods and services.

- **How will Exports be treated under GST?**

Exports will be treated as zero rated supplies. No tax will be payable on exports of goods or services, however credit of input tax credit will be available and same will be available as refund to the exporters.

- **What is the scope of composition scheme under GST?**

Small taxpayers with an aggregate turnover in a financial year up to [Rs. 50 lakhs] shall be eligible for composition levy. Under the scheme, a taxpayer shall pay tax as a percentage of his turnover during the year without the benefit of ITC.

The floor rate of tax for CGST and SGST shall not be less than [1%]. A tax payer opting for composition levy shall not collect any tax from his customers. Tax payers making inter- state supplies or paying tax on reverse charge basis shall not be eligible for composition scheme. Please note that the composition scheme is optional.

COMPUTER EDUCATION Jain Group - Bengaluru
G-TEC JAINx EDUCATION

- **What is GSTN and its role in the GST regime?**

GSTN stands for Goods and Service Tax Network (GSTN). A Special Purpose Vehicle called the GSTN has been set up to cater to the needs of GST. The GSTN shall provide a shared IT infrastructure and services to Central and State Governments, tax payers and other stakeholders for implementation of GST. The functions of the GSTN would, inter alia, include:

- facilitating registration;
- forwarding the returns to Central and State authorities;
- computation and settlement of IGST;
- matching of tax payment details with banking network;
- providing various MIS reports to the Central and the State Governments based on the tax
- payer return information;
- providing analysis of tax payers' profile; and
- running the matching engine for matching, reversal and reclaim of input tax credit.

The GSTN is developing a common GST portal and applications for registration, payment, return and MIS/ reports. The GSTN would also be integrating the common GST portal with the existing tax administration IT systems and would be building interfaces for tax payers. Further, the GSTN is developing back-end modules like assessment, audit, refund, appeal etc. for 19 States and UTs (Model II States). The CBEC and Model I States (15 States) are themselves developing their GST back-end systems. Integration of GST front-end system with back-end systems will have to be completed and tested well in advance for making the transition smooth.

Is Your Business Ready For GST?

Every business in India will need to comply with GST after 1st July 2017. GST rules will apply to invoicing, receipts, delivery challans and various other transactions. Tally is a GST-compliant accounting software which will help you create GST invoices, file GST returns online and do reconciliation of sales & purchases.

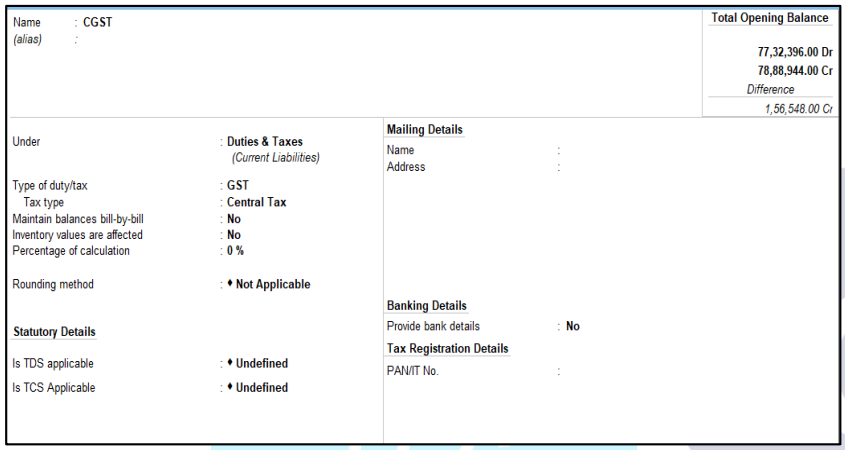

Its very simple to use and trusted by thousands of business owners and CAs.

Bill-wise Details

If you make an entry to a ledger that needs BillWise Details, you. have to give the details of the bill at the voucher entry itself . Where you can see the details of bills, specific credit periods and get the correct outstanding result [Balance] of each ledger.

Where their is large nos of entries it becomes difficult to match a payment to an Invoice. So the details of creditors and debtors are maintained at the Invoice level this is called **Bill-Wise Accounting.**

- **Activation of Bill-wise Details**

- **Gateway of Tally** > Fll : Accounting Features > Set the following option
  Enable Bill-wise Entry to **'Yes'**

Process of inserting (Assigning) Credit Days Facility to following Sundry Debtors & Sundry Creditors Ledger.

- **Gateway of Tally > Ledger > Alter**

EDUCATION

Cost center

While Accounts ledger provides information about the nature of transaction, it does not identify the departments or divisions involved with it. Cost Centers (and Categories) gives additional dimension to the transaction. Cost Center is any unit in an organization to which costs can be allocated. Cost Centers may be various Branches, Departments, Projects, Products, Persons etc.

You can organize Cost Centers into numerous (Primary & Secondary) levels, in hierarchical structure without any limit.

For example, you may analyses the Salary Expenses according to Branches and Departments. Simultaneously you want the Salary Expenses to be split up into Ledger Accounts like Basic. DA, TA, etc. So that you know the department -wise break-up of these elements. In such situation, only Ledger Accounts are insufficient as they will not provide you two-way analysis. Such concept may be extended to any Income or Expense, Spanning Over number of Cost (or Profit) Centers.
Following example will better clarify the utility of Cost Centers

1) Head Office 2) Branch Office 3) Factory 1 4) Factory 2

And you are interested to get Ledger wise as well Office/Factory wise breakup of expenses figures. For this purpose, Create Cost Centers for each Office/Factory and while entering such expenses in Vouchers, allocate to respective Cost Centers. Then you will be able to get:-

Ledger Account wise Figures

Cost Center wise Figures

Cost Center wise breakup of each Ledger

Ledger Account wise breakup of each Cost Center

Normally, Cost Centers are used to allocate Revenue Accounts (Expenses & Income), You can even allocate non revenue account (for example, Capital Project Cost, Fixed Assets etc.) to Cost Centers.

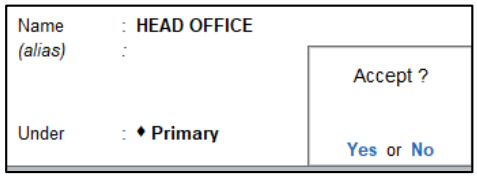

- **Activation of Cost Center**

Indirect Expenses	8,845.00	
Grand Total	98,34,330.10	98,34,330.10

To Display the Cost Center Entries

- **Gateway of Tally** > Display > Statement of Account > Cost Center >Cost Center Break-Up > Cost Center Name

Cost Categories

Tally gives substantial flexibility to allocate ledger account figures to Cost Centers. However some organization may need to allocate the expenses in more than one dimension. If your requirement of allocation of Cost Center is more demanding, then you may use Cost Categories.
Cost Categories allow parallel sets of Cost Centers to allocate .

For Example

A Company may allocate an amount independently to Salesman, Products & Agents as follows:

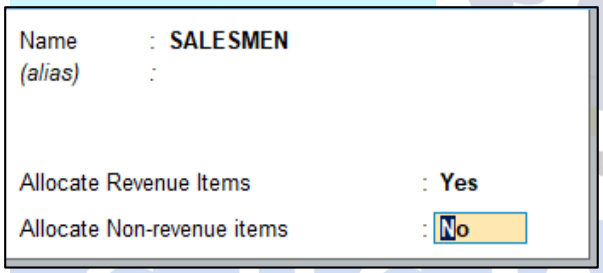

Cost Category	Salesman	Products	Agents
Cost Centers	Mr. A	ITEM 1	ABC
	Mr. B	ITEM 2	XYZ

Having done like this, now you will get reports of allocated amount accordingly

Note Normally, most of the organization will find Cost Centers alone sufficient for cost allocation and would not require Cost Categories, Before opting Cost Category, weigh its merits & complexity as it will increase data entry . If Cost Centers alone serves your purpose, avoid Cost Category.

Creating New Cost Category

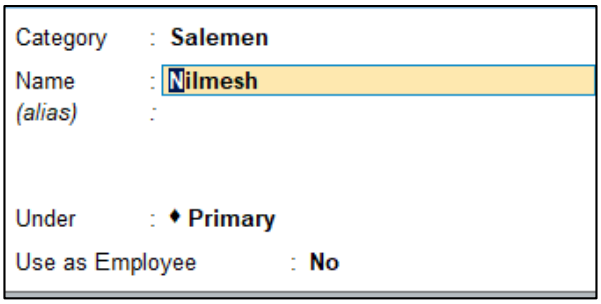

- **Gateway of Tally** > Cost Categories > Single Cost Categories > Create

Press **Enter** & **Accept** the Screen & return to **Gateway of Tally**

- **Gateway of Tally** > Create (Single) Cost Centre > Create

Category	Salesmen

Backup & Restore

- **Backup**

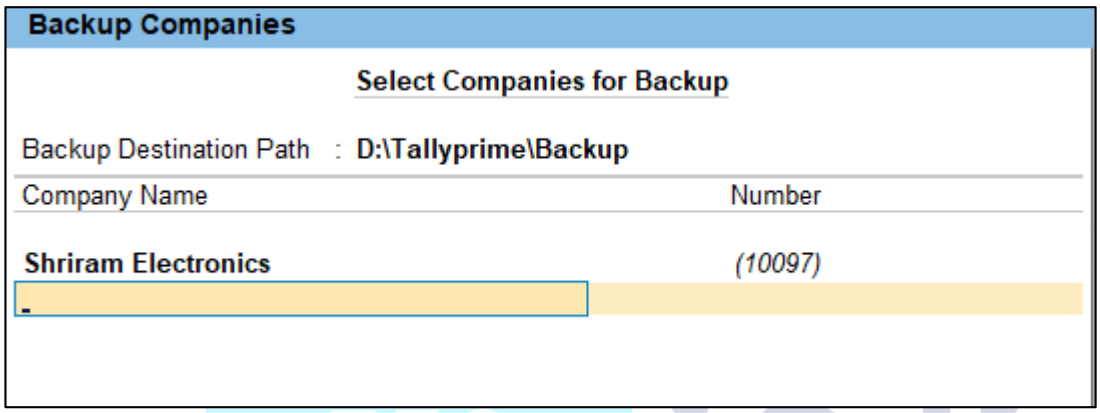

Tally has a flexible back-up mechanism wherein you can take a backup of the data from virtually any storage medium into any other medium.

The more commonly used media are Pen drive, Hard Disk Drive, Zip drive, etc - installed either locally or on a network. In the backup screen, the source of the backup and the destination of where it has to be stored has to be given, Tally will do as required.

- **Start Tally > Gateway of Tally** > Alt +Y > Backup **Source** :

default it is the Data folder of Tally Prime

Destination : Path where you keep Your Tally Backup File

Press **Enter** & **Accept** the Screen

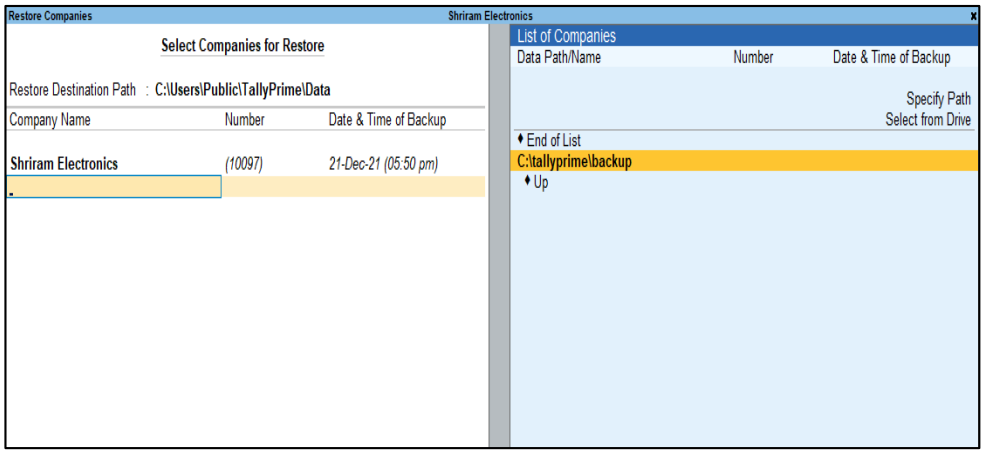

- **Restore**

Note: As in the case of backup - this option is available only on the Company Information screen

Start Tally > Gateway of Tally > Alt + Y > Restore

Destination : D:\Tally Prime\Data

Source : D:\TALLYBACKUP

Press **Enter & Accept** the Screen

TEC COMPUTER EDUCATION Jain Group - Bengaluru

MIS -Reports

Introduction:

Management information systems, commonly referred by its acronym,MIS,is an information system designed to provide management with accurate and timely information necessary for evaluating business activities, tracking progress and decision making.

Based on the nature of business, MIS reports differ From organization to organization and division to division. For Example, the daily MIS Report of a customer call-center, will include reports that capture details like total number of calls received from customers, total number of calls received for new sales, total number of class for complaints. At the same time, for a company that deals in buying and selling of products to the customers on credit and cash basis, would maintain periodic MIS reports that reflect details like total number of purchases and sales made by the company, total bills payables, total bills receivables.

Similarly, within the same organization different divisions/departments require different types of MIS Reports for arriving at business decisions related to their functional area. Thus, a revenue and expenses reports will be useful for an accounts manager where as reports related to inventory and goods inflow/outflow report, will be useful to a production manager.

At the same time, every business organization is required to prepare certain financial reports that should the business Profit or loss and financial position of the company (Balance sheet) at the end of a financial period.

Management information:

Aids in Faster Decision Making : MIS reports provide instant and accurate data which help the management in taking right decisions at the right time i.e., supports the management in taking faster and accurate business decisions.

Aids in Planning: It provides information based on which managers can plan business activities.

Collection and Storage of information : The bigger an organization, bigger the problem, of collecting and maintaining data and information, M IS helps handle large volumes of data with ease. **Evaluation of performance** : MIS help in setting performance standards, monitoring performance, taking corrective measures in case of deviations in plans, etc.

Features of Management Information System:

Reports in Tally ERP9 (MIS Report):

- Trial Balance
- Balance sheet
- Profit & loss Account
- Cash Flow Statement
- Ratio Analysis
- Books and Reports
- Day Book
- Receipts and Payments
- Purchase Register
- Sales Register
- Bill Receivable and Bills Payable

- **Trial Balance:**

A Trail Balance is a statement showing the balances or total of debits and credits of all the accounts in the ledger. It helps in the preparation of financial statements such as profit & loss A/c, Balance sheet & Cash Flow statement. In a Trail Balance, the balances of various accounts (Debit balances and credit balances) are listed in a sheet or a statement at the end of the accounting period.

All Revenue and expense accounts appearing a in the trial balance are transferred to the trading & profit & loss accounts & all liabilities, capital, and asset accounts are transferred to the balance sheet.

- **How to Display Trail Balance in Tally Prime**

- **Balance sheet:**

A Balance sheet is a financial statement that reports a business's financial position as on a specific date. The term balance sheet implies that the report shows the balance between to figures. It shows a balance between the assets and liabilities of a business. The fundamental accounting equation is,

Assets = Liabilities + Owner's equity

The Accounting equation is a in build in Tally Prime. It takes information from the Chart of Accounts Created and transactions entered to create the Balance sheet automatically. No extra processing is required by the users to generated balance sheet.

➢ Cash Flow Statement:

A Cash Flow statement is a record of the amounts of Cash and Cash equivalents entering and leaving a company. It complements the Balance sheet and Profit and Loss Account. A Cash Flow Statement helps a business owner (and other stakeholders) understand how or from where the company's money is coming, and where it is being spent.

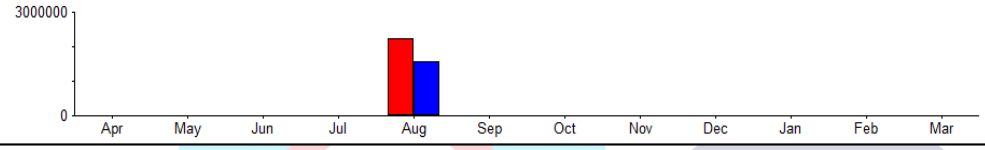

A Cash Flow statement shows only the actual cash inflows and outflows of a company, unlike a Balance sheet or Profit and loss account which also show future cash incomings and outgoings (i.e., Credit transactions). Based on the grouping of ledgers and transactions entered, Tally Prime prepares the Cash Flow Statement automatically.

➢ **Ratio Analysis:**

The Ratio Analysis report provides a critical overview of a company's performance in the form of ratios. Not only does this report provide an instant understanding of the Working Capital, the Operating Cost percentage and the Nett and Gross Profit percentage, but also gives information about the payment performance of debtors. The return on investment percentage and the return on working capital percentage are other critical ratios available in this report. Tally Prime uses the data from transactions to arrive at the ratios. The report is generated automatically.

- **Books and Reports:**

In Tally Prime, as soon as transactions are entered they are immediately posted to the respective ledgers, books and registers, thereby facilitating instant generation of report and faster decision making.

Books of Account is a record of the commercial accounts of a company and consolidates the transaction details as they are entered. Although the elements of a transaction are posted to many different ledgers simultaneously, Tally Prime brings all the transactions of a particular type together into relevant books of account for viewing and printing. For example, Cash Book records all the transactions affecting cash and the Sales Book records all sales transactions. -r

Day Book:

The Day Book contains a record of all transactions made by a business, irrespective of the type of transaction. By default the display is set to the date of the last voucher entry made, but this can be set to list all the transactions made over a certain period.

Transactions include all financial vouchers, reversing and memorandum Journals as well as inventory vouchers.

➢ **How to Display Day Book in Tally Prime**

- **Gateway of Tally > Display > Day Book**

➢ **Receipts and Payments:**

Receipts and Payments Account is a Report of Cash and Bank transactions during a period. It is used in place of an Income and Expenditure Statement when it is not considered appropriate to distinguish between Capital and Revenue transactions or to include accruals.

In other words,

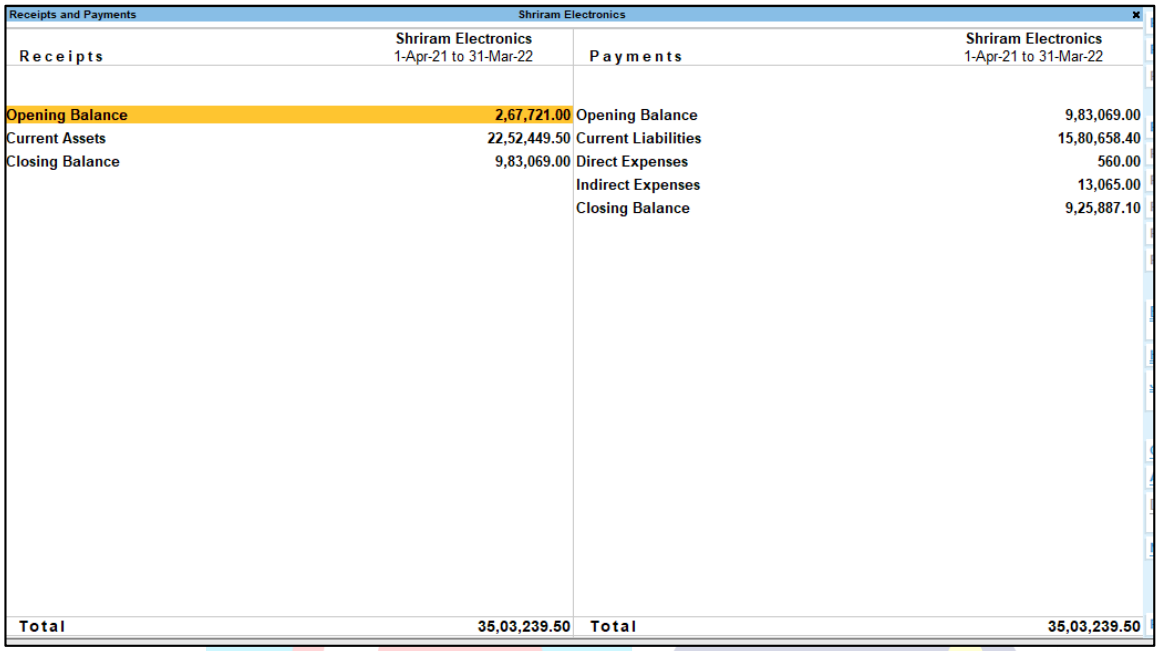

- It is a consolidated summary of Cash Book, prepared for the required period. *r
- It starts with the opening balance of Cash and Bank and ends with the closing balance of Cash and Bank.
- It does not take into account outstanding receivables and payables.
- It may be Capital or Revenue in nature, relating to the current, previous or subsequent year; as long as they are actually received or paid, they must appear in this account.

No special processing is required to produce a Receipts and Payments Account in Tally Prime, once the transactions are recorded then the report will be updated automatically.

Tax Deducted at Source

Tax Deducted at Source (TDS) is an indirect method of collecting income tax. This is covered under the under section 192 to 197 of Income Tax Act. 1961. Tax deducted at source is one of the modes of collecting income tax from the taxpayers. The tax so deducted at source by the payer has to be deposited in the Government treasury to the credit of central government within the specified time. The Deductor also provides Form 16A to the Deductee.

TDS is a compulsory and convenient method of Tax payment during the generation of income itself. Such collection of tax has an effect at the source when income arises or due. This is the tax, which is deducted at the time of making payment of expenditure and paying to the Income Tax Department i.e. Government (through Bank) within the stipulated time on behalf of the person to whom payment is made. Tax shall be deducted at the time of crediting that person's account or at the time of payment of such expenditure in cash or by way of a cheque or by any other mode which ever is earlier.

Let us understand the background of TDS with the help of following example:

If Balaji Trading Company makes payment of commission to Mr. Kunal of Rs. 50,000/- for his bill. This is the expenditure to Balaji Trading Company but income to Mr. Kunal. And Mr. Kunal has to pay income tax on this income. But under the provisions of Income Tax Act it is the responsibility of Balaji Trading Company to deduct the Tax from the payment of Mr. Kunal and deposit the same to the government. Balaji Trading Company will also issue a TDS certificate to Mr. Kunal for this deduction so that Mr. Kunal will take credit of the amount of TDS while calculating his Tax Liability. The amount of tax deducted should be deposited to Government within one week from the last date of the month in which the deduction is made. In the above example if Balaji Trading Company has shown commission **payable** to Mr. Kunal on 11th June. Company has to deduct the tax of Mr. Kunal on 11th June & has to deposit the TDS up to 7th July to the Government through specified bank. Now while making the actual payment to Mr. Kunal against this bill tax is not required to be deducted again as the tax is already deducted. On the other hand if payment is made in advance without recording the bill, tax has to be deducted and should be deposited to Government within one week from the last date of the month in which the payment is made. In the above example if Balaji Trading Company has **paid** commission in advance to Mr. Kunal on 18th November. Company has to deduct the tax of Mr. Kunal while making payment & has to deposit the TDS up to 7th December to the Government through specified bank. In Short the deductions made in a particular month should be deposited within one WEEK of the next month.

If the bill is recorded on last day of the financial year then tax is to be deposited in the bank within 2 months from 31st March, i.e. up to 31st May of that year. In the above example if Balaji Trading Company records the commission payable bill on 31st March then company has to deduct the tax amount on that date and deposit it up to 31st May.

The Deductor will issue Form No. 16/16AA against salary and Form No 16A against other payments. This is commonly known as 'TDS Certificate'.

The Deductor has to file his Quarterly return of TDS to the Income Tax Department. The Income Tax Department has prescribed the formats for filing these returns electronically also. For additional details you can visit the Income Tax Website at: http://www.incometaxindia.gov.in

Following are the three important points to be considered for TDS.

1. The person deducting the tax - is called as Deductor. Whose identity can be a Company or Non Company (an individual, partnership firm, HUF, etc.)

- Any person responsible for paying an amount covered under the head salary has to deduct tax from salary.
- Any person including individual or HUF whose total sales or turnover is above Rs. 40 Lacs or professional receipts are above 10 Lacs, has to deduct the Tax.

2. The Person receiving payment is called Deductee. Whose identity can be:

A	**Individual** - It refers to a natural human being.
B	**Hindu Undivided Family (HUF)** - It refers to a joint Hindu family of persons lineally descended from a common ancestor and their wives and unmarried daughters.
C	**Partnership firm** - It refers to partnership governed by Partnership Act
D	**Company** - It means any Indian company or foreign company.
E	**Association of Persons (AOP) OR Body of Individual (BOI)** - It refers to group of persons or individuals who come together to do the business.
F	**Co-operative Society** - A society registered under co-operative societies Act.
G	**Local Authority** - Municipal corporations, Dist. Boards, Grampanchyat etc.
H	**Artificial Judicial Person** - It covers all remaining entities, which are not covered under above categories.

3. Type of Payment -This may consists of some following important expenditures:

A	Salary (Section 192)- It is amount paid by employer to the employee it includes basic salary, different allowances, perquisites, bonus, commission, pension etc.
B	Interest other than interest on securities (Section 194A) - It covers interest on deposits and loans, this does not include interest paid by partnership firm to its partner, interest paid to Banks, LIC, UTI, Co-operative banks, other financial institutions.
C	Payment to contractor and sub contractor - The contract includes Construction Contract Advertisement contract,Maintenance contract,Telecasting Contract,Supply of labour contract
D	Payment of commission or brokerage - Any payment given as a Commission for selling or buying of goods or any assets or other valuable articles.
E	Payment for Rent - Any payment given for the use of any building or premises including the furniture and fixtures under an agreement or lease deed.
F	Payment of fees for Professional or Technical services- This covers services given in course of Legal, medical, engineering, architectural profession, accountancy profession, technical consultancy, interior decoration etc.T he Deductor will issue Form No. 16/16AA against salary and Form No 16A against other payments. This is commonly known as'TDS Certificate'.

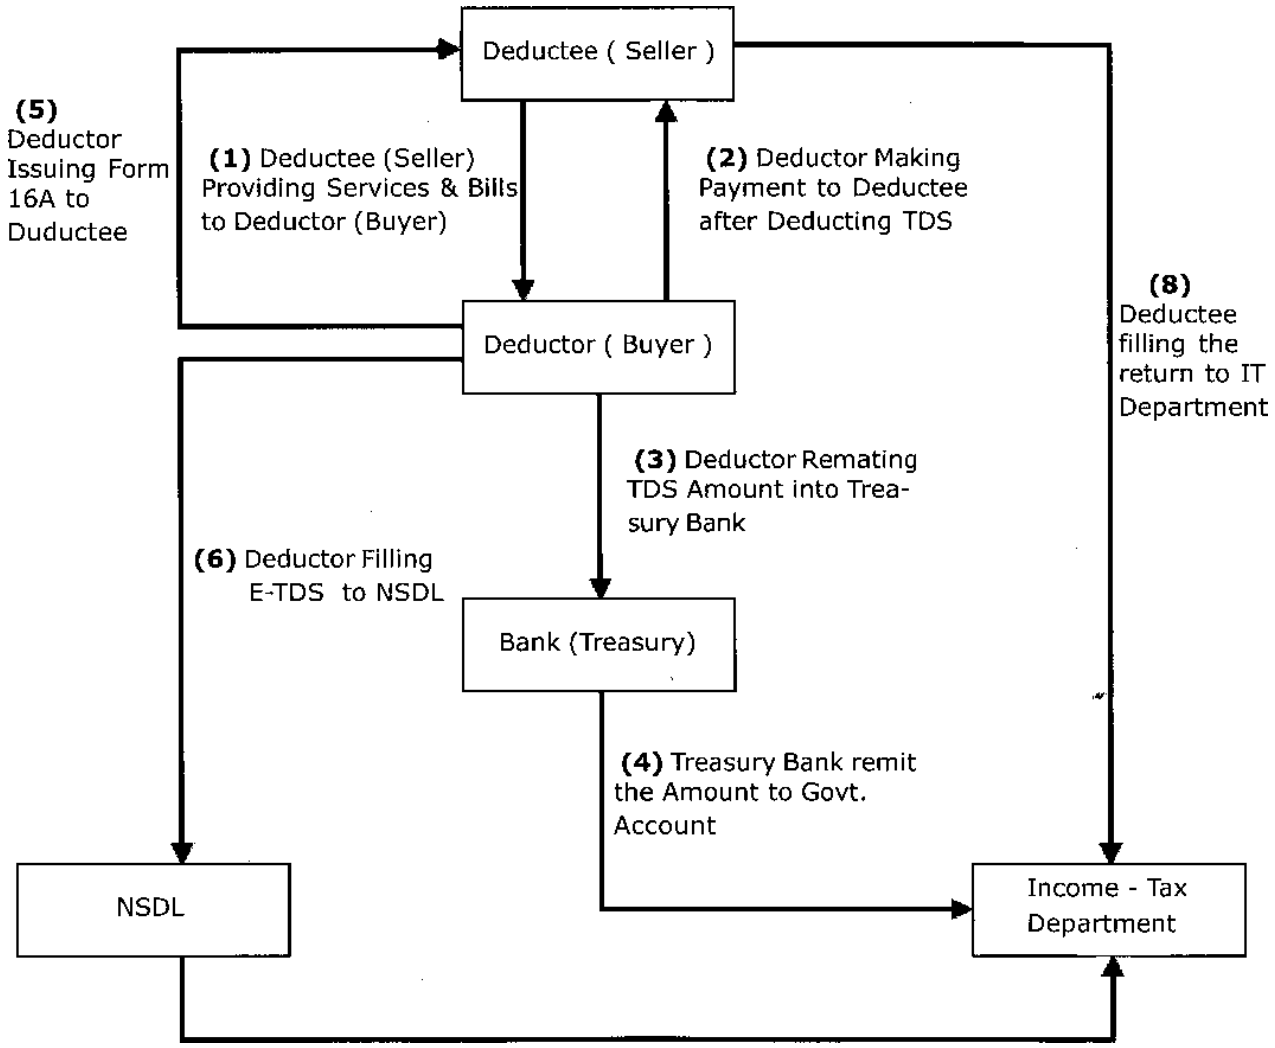

The Deductor has to file his Quarterly return of TDS to the Income Tax Department. The Income Tax Department has prescribed the formats for filing these returns electronically also. For additional details you can visit the Income Tax Website at: http://www.incometaxindia.aov.in

Rates for Tax Deduction at Source

(For Assessment Year 2020-2021)

Shriram Company	
1. Where the Company is a Domestic Company	**Percentage**

➢ **TDS Statutory Masters**

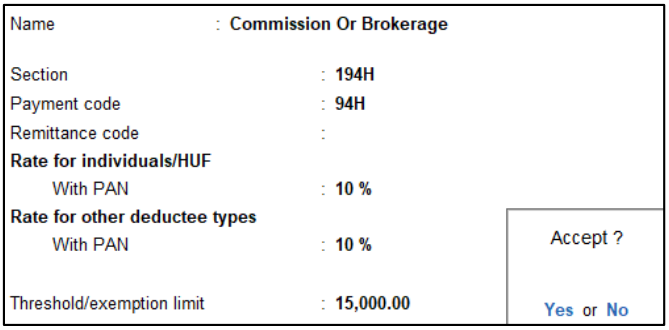

Income Tax will be deducted at source based on the rate defined in the Act, for the Deductees, against the Nature of Payments. Hence to account TDS transactions, every payment and the party to whom the payment is made needs to be identified against the Nature of payment and deductee type as defined in the Act. In Tally Prime, all the Nature of Payments and Deductees Types (as defined under the Act) are provided as Statutory Masters. These Statutory Masters will be loaded into Tally Prime during company creation, when the Statutory compliance for is set to India. On enabling TDS Feature in F11: Statutory & Taxation features, TDS Statutory masters will be available for selection during Creation of Expenses, Party and TDS ledgers.

➢ **To View the Total List of TDS Nature of Payment In Tally**

• **Gateway of Tally > Statutory Info. > TDS Nature of Pymts > Create**

Enter the Name & Press **Ctrl+C** & Select the Nature of Payment as **Commission** or **Brokerage** as shown in the screen
