CHAPTER 1: ACCOUNTING FUNDAMENTAL

ACCOUNTING TERMS, ACCOUNTING ASSUMPTION, CONCEPTS AND PRINCIPAL

- **WHAT IS ACCOUNTING?**

Accounting is defined as systematic, summarized recording of business transactions in the books of account. In other words the books of your company can be treated as medical reports that shows the health of your company. To learn accounting, it is necessary to understand the fundamentals of Debits & Credits, Assets & Liabilities, and Income & Expenses to prepare & maintain accounts systematically & correctly.

- **WHAT IS TRANSACTIONS?**

Transactions means transfer of money from one party to another. For e.g. Sale of Computer, Purchase of Furniture etc.

- **WHAT IS DEBTOR?**

Debtor is that person who owes money to the business on account of Credit sale of goods or advance given.

- **WHAT IS CREDITOR?**

Creditor is that person to whom the business owes money on account of credit purchase of goods or loan taken.

- **WHAT IS ASSET?**

Assets are the things of value owned by the business for e.g. Cash, Unsold Stock, Furniture, Building, Vehicle, Shares, and Money due from the Debtors (Customers)

- **WHAT IS LIABILITIES?**

Liabilities is that sum of money which the business owes to outsiders, for e.g. Capital (Amount invested by proprietor to start the business), Loan taken from Bank, friends, relatives, money to be given to Creditors (Suppliers).

- **WHAT IS CAPITAL?**

The Owner of Business who have invested amount in the business to start the business i.e. Loan given by proprietor to the business. Which also mean that Capital is one of the liability of business.

- **WHAT IS CASH TRANSACTION?**

When assets or goods are sold on cash or purchased on cash then this transaction is known as cash transaction.

- **WHAT IS CREDIT TRANSACTION?**

When asset or goods are sold on credit or purchased on credit then this transaction is known as Credit transaction.

Double entry system & Single entry system

- **WHAT IS TRANSACTION SYSTEMS?**

There are two systems for recording the transaction i.e. **Double entry system & Single entry system**

- **A DOUBLE ENTRY SYSTEM:** is based on the fact that a transaction is double-sided. If one receives something then either (1) some other person has given it or (2) stock of something else has reduced or (3) some services has been rendered. So each transaction has to be recorded in both the aspects.

- **A SINGLE ENTRY SYSTEM:** is concerned with only one side of transaction, either you pay someone or you receive from someone.

GOLDEN RULES

➢ WHAT ARE THE RULES FOR RECORDING TRANSACTIONS….?

WHENEVER ANY TRANSACTION TAKES PLACE AN ACCOUNTS IS EITHER DEBITED OR CREDITED.

THE THREE RULES FOR RECORDING TRANSACTIONS WHICH ARE AS FOLLOWS

TYPES OF ACCOUNTS:-

1) **PERSONAL ACCOUNT**
2) **REAL ACCOUNT**
3) **NOMINAL ACCOUNT**

1) PERSONAL ACCOUNT - DEBIT THE RECEIVER
CREDIT THE GIVER

.

LET US UNDERSTAND THE RULE BY FOLLOWING EXAMPLE:
SUPPOSE AJAY BUYS GOODS FROM SACHIN HERE...

A) AJAY HAS RECEIVED THE GOODS B) SACHIN HAS GIVEN THE GOODS,
C) AJAY HAS TO PAY THE PRICE OF GOODS D) SACHIN IS ENTITLED FOR A CREDIT
E) AJAY IS ENTITLED FOR A DEBIT

IN ACCOUNTING, **AJAY** WILL BE **DEBITED** & **SACHIN** WILL BE **CREDITED.**
LATER ON WHEN AJAY PAYS TO SACHIN, THEN SACHIN'S ACCOUNT WILL HAVE BE DEBITED & AJAY'S ACCOUNT HAS TO BE CREDITED.

2) REAL ACCOUNT - DEBIT WHAT COMES IN
CREDIT WHAT GOES OUT

SUPPOSE YOU BUY THE FURNITURE FOR YOUR SHOP BY CASH.
THEN ACCORDING TO THE ABOVE RULE FURNITURE ACCOUNT WILL BE DEBITED (AS FURNITURE COMES IN) AND CASH ACCOUNT WILL BE CREDITED (AS CASH GOES OUT.)

3) NOMINAL ACCOUNT - DEBIT ALL EXPENSES/ LOSSES
CREDIT ALL INCOME/GAINS

SUPPOSE YOU HIRED A SHOP ON RENT THEN ACCOUNTING AS ABOVE RULE, YOU WILL HAVE TO DEBIT THE RENT A/C AS RENT IS EXPENDITURE FOR BUSINESS & CREDIT THE CASH A/C (AS CASH GOES OUT)

AFTER ACCOUNTS ARE PREPARED THE NET RESULTS OF DEBITS AND CREDITS OF EACH ACCOUNT ARE ASSESSED.

IF THE TOTAL OF DEBITS SIDE IS > CREDIT SIDE, THE BALANCES IS KNOWN AS “DEBIT BALANCE” AND IF THE TOTAL OF CREDITS SIDE IS > DEBIT SIDE, THE BALANCES IS KNOWN AS “CREDIT BALANCE”.

➢ WHAT IS JOURNALIZING ACCOUNTS?

IT IS THE PROCESS OF RECORDING YOUR DAY TO DAY TRANSACTIONS IN CHRONOLOGICAL ORDER CLASSIFIED INTO DEBITS & CREDITS. IN MANUAL ACCOUNTING TRANSACTION IS FIRST POSTED INTO JOURNAL & THEN EACH ACCOUNTS FROM JOURNAL IS THEN POSTED INTO LEDGERS.

THE JOURNAL IS DIVIDED INTO 5 COLUMNS

DATE	PARTICULARS	LF	DEBIT	CREDIT

- **DATE** : RECORDS THE DATE OF TRANSACTION.
- **PARTICULARS** : RECORDS THE DETAILS OF BUSINESS TRANSACTION. A NARRATION IS ALSO WRITTEN IN THIS COLUMN.

  (NARRATION MEANS DETAIL EXPLANATION OF JOURNAL ENTRY)
- **LF (LEDGER FOLIO)** : POSTING THE PAGE NUMBER OF EACH JOURNAL ENTRIES IS DONE IN LEDGER ACCOUNTS. (IT IS NECESSARY THAT THERE SHOULD BE CERTAIN REFERENCE TO THE PAGE NUMBER OF LEDGER).
- **DEBIT** : THE AMOUNT DEBITED UNDER A TRANSACTION.
- **CREDIT** : THE AMOUNT CREDITED UNDER A TRANSACTION

NOTE: - UNDER ANY TRANSACTION THE TOTAL OF DEBIT COLUMN OF THE JOURNAL SHOULD BE THE SAME AS THAT OF CREDIT COLUMN

EXAMPLE:-

PASS THE JOURNAL ENTRY FOR FOLLOWING TRANSACTION GIVEN BELOW:-

THE **SUBSIDIARY BOOKS** ARE PURCHASE BOOK, PURCHASE RETURN BOOK, SALES BOOK, SALES RETURN BOOK, BILLS RECEIVABLE BOOK, AND BILLS PAYABLE BOOK.

All Cash Transactions Are Recorded In **Cash Book**. Cash Means Notes, Coins, Bank Drafts, Cheque And Postal Orders. Cash Transactions Have Two Aspects I.E. Receipts & Payments. Cash Book Records All Cash Receipts And Cash Payments.

Cash Book Maintains Proper & Systematic Record Of Actual Cash Received Or Paid. The Rule Of Debit And Credit Is Same As Before "Debit What Comes In And Credit What Goes Out", That Is Why Receipts Are Recorded At The Debit Side And Payments Are Recorded On The Credit Side.

➢ WHAT IS LEDGER ACCOUNT?

The Proprietor Of The Business Expects From Accounting To Let Him Know The Position Of Individual Debtor (Customer) And Creditors (Supplier) Account. In Ledger Individual Parties Account Is Prepared Separately. So, The Ledger Can Be Defined As Collection Of Required Information Concerning A Particular Account And Presenting Them Under One Head Is Known As **Ledger Posting.** For Ex. We May Purchase Goods From Ram, We May Sell Goods To Him Or Return Goods To Him, Or Goods May Be Returned By Ram. In The Same Way, We May Receive Payment From Ram Or May Pay Him. All These Transaction Regarding Dealing With Ram Must Have Been Recorded In Different Books I.E., Cash Book, Purchase Book Or Return Book. Recording Transaction In Different Books Concerning Ram Doesn't Present The True Picture Of Ram's A/C.

G-TEC JAINx

We Are Not In Position To Verify Whether Ram Is A Debtor Or Creditor. So, Each & Every Dealing With Ram Should Also Be Presented Under One Heading I.E., Ram's A/C. This Ram's A/C Is Called As Ledger Account Which Shows The Position At A Glance. All The Information Regarding A Particular Account Is Collected From Different Subsidiary Books And Presented Under One Heading Knows As The **Ledger Account.**

THE LEDGER ACCOUNT IS DIVIDED IN TWO PARTS:-

1) THE LEFT-HAND SIDE IS DEBIT SIDE (DR)
2) THE RIGHT-HAND SIDE IS CREDIT SIDE. (CR)

EACH SIDE IS AGAIN DIVIDED INTO FOUR SECTIONS NAMELY

a) **DATE:** - IN THIS COLUMN THE DATE OF TRANSACTION IS RECORDED. IT IS FIRST RECORDED IN THE JOURNAL BOOK & THEN BROUGHT TO THE LEDGER ACCOUNT.

b) **PARTICULARS:** - IN THIS COLUMN THE NAME OF ACCOUNT IN WHICH THE CORRESPONDING DEBIT OR CREDIT IS FOUND IS RECORDED.

➢ WHAT IS BALANCE ON AN ACCOUNT?

The Balance On An Account Is The Difference Between The Total Of The Debit Side And The Total Of The Credit Side. If The Totals On The Two Sides Of An Account Are Equal, The Account Is Said To Be Squared Up And There Is No Balance Left To Debit Or Credit By The End Of The Period. If The Debit Side Total Of An Account Is Greater Than The Credit Side, The Balance Is Termed As **Debit Balance**, Otherwise It Is Termed As The **Credit Balance**, And The Balance Of An Account Ascertained On The End Of A Period Is Termed As The **Closing Balance** Of The Account. If The Account Is Real (Related To Assets) Or Personal (Related To Persons), The Closing Balance Is Carried Down To The Succeeding Period As An **Opening Balance** But If The Account Is Nominal (Related To Expenses, Losses And Income) Such Balance Is Transferred To Profit And Loss Account.

If The Balance Is A Debit Balance It Is Carried Down (C/D) Or Carried Forward (C/F) To The Succeeding Period As "To Balance B/D (Brought Down)" On The Debit Side Of The Account. On The Other Side If The Balance Is A Credit Balance, Then It Is Brought To The Credit Side Of The Account As “By Balance B/D (Brought Down)".

➢ What is Trial Balance?

At The End Of An Accounting Period All The Accounts Are Balanced And The Balances Listed. The Total On Both The Sides Of This, Called The **Trial Balance**. Because Of The Duality Concept Every Debit Should Have A Credit And Vice Versa. Thus The Trial Balance Is An Arithmetic Check That All The Double Entries Have Been Completed, However, It Will Not Detect Errors Such As The Posting Of A Debit To The Wrong Account. Before We Venture Into The Details Of Trial Balance Calculations, Let Us Look At How A Statement Of Balances Is Prepared With Debit And Credit Columns. Debit Balances Of Ledger Accounts Are Entered In The Debit Column Of The Statement And Credit Balances Of Ledger Accounts Are Entered In The Credit Column Of The Statement. The Totals Of These Columns Are Matched, If They Are Equal Then The Calculations Are Correct, Else There Is A Mistake In Calculations.

➢ What is Trading & Profit & Loss Account?

Every Firm Likes To Measure The Performance Of Its Business Operations In Terms Of Profit And Loss It Also Likes To Know The Values Of Its Assets And Liabilities On The Closing Date Of Accounting Period. In Order To Ascertain Its Income And Also The Assess The Position Of Assets And Liabilities, Financial Statements Are Prepared. The Traditional Name For Financial Statements Is 'Financial Account'.

Financial Statements Are Divided In Two Parts, Income Statements And Position Statements. The Term Income Statement Is Traditionally Known As **Trading And Profit & Loss** Account And Position Statement Is Known As **Balance Sheet.**

The Trading & Profit & Loss Account Can Be Described In Simplest Possible Terms As An Account In Which The Profit Or Loss For An Accounting Period Is Computed. The Trading and Profit & Loss Account Is Often Referred To As the Profit And Loss Account (The P&L) or the Income Statement. The Income For The Period Has To Be Compared With, Or Matched Against, The Expenditure For That Period Involved In Generating The Income And The Profit Is Difference Between Income And Expenditure.

WHILE CALCULATING THE COST OF GOODS SOLD, WE ADD DIRECT EXPENSES TO THE OPENING STOCK AND PURCHASES.

DIRECT EXPENSES CONSIST OF EXPENSES INCURRED IN ACQUIRING AND MANUFACTURING GOODS. THESE EXPENSES ARE DIVIDED INTO TWO CATEGORIES AS SHOWN BELOW:

(I) EXPENSES ON PURCHASING GOODS:

- CARRIAGE, CARTAGE
- FREIGHT INWARD
- OCTROI AND LOCAL TAXES
- EXCISE DUTY
- IMPORT DUTY, LANDING AND DEARING CHARGES

(II) EXPENSES ON MANUFACTURING GOODS:

- COAL, GAS, WATER AND OTHER FUEL
- WAGES
- MANUFACTURING EXPENSES
- FACTORY EXPENSES
- STORAGE CHARGES

ILLUSTRATION:

CALCULATE GROSS PROFIT FROM THE FOLLOWING INFORMATION

SOLUTION:

DIRECT EXPENSES = FUEL + CARRIAGE + OCTROI

4,000 = 2,000 + 1,500 + 500

NET PURCHASES = PURCHASE - PURCHASES RETURNED

3,000 = 5,000 -2,000

NET SALES = SALES - SALES RETURN

49,000 = 50,000 -1,000

COST OF GOODS = OPENING STOCK + NET PURCHASES - DIRECT EXPENSES - CLOSING STOCK

27,000 =25,000 + 3,000 +4,000 - 5,000

GROSS PROFIT = NET SALES – COST OF GOODS

➢ WHAT IS PROFIT & LOSS ACCOUNT?

Profit & Loss Account is prepared to calculate the net profit or net loss of the business for a given accounting period. The profit & loss account start with the credit from the trading account in respect of gross profit (or debit if there is gross loss). There after all those indirect expenses or losses which have not been debited to the trading account are debited to the profit & loss account. Indirect expenses include all administrative, selling and distribution expenses such as salaries, rent, taxes, postage, stationary, interest paid, electricity bill, advertising or any other incomes or gains besides gross profit, they will also be transferred to the credit side of the profit & loss account. The difference of the two sides of this account is either net profit or net loss. If the total of credit side is greater than the total of the debit side, the different represents **Net Profit.** On the other hand, if the total of debit side exceeds the profit or net loss is transferred to the capital account of the proprietor. Net profit increases the capital whereas net loss decreases the capital. The expenses or charges that are taken to the debit side of profit & loss account are generally classified into three categories:

i) Selling expenses such as rent of office premises, advertising expenses, travelling allowance, commission etc.

ii) Distributive expenses such as packing charges, vehicle maintenance, outward cartage etc. Administrative expenses such as staff salary, electricity bill and other office expenses.

The income or profit that are taken to the credit of profit & loss account are generally classified into following categories:

A) DIVIDEND RECEIVED

B) INTEREST EARNED

C) DISCOUNT AND COMMISSION RECEIVED.

WHAT IS CLOSING ENTRIES IN RESPECT OF PROFIT & LOSS ACCOUNT?

The entries that have to be made in the Journal for preparing the trading account and Profit & Loss account are known as **Closing Entries**. Follow the step mentioned below to make the necessary entries

i) In order to close the accounts of expenses or losses, debit the profit and loss account and credit the corresponding expenses account. This entry will close all the expenses account in the ledger.
ii) In order to close the accounts of income or profit, debit the corresponding income account and credit the profit & loss account. This entry will close the income account in the ledger.
iii) In order to transfer the balance of profit & loss account, debit the profit & loss account and credit the capital account if there is not profit, otherwise credit the profit & loss account, and debit the capital account.

➢ ALL BALANCE ON AN ACCOUNT

The Balance on an account is the different between the total of the debit side and the total of the credit side. If the totals on the two sides of an account are equal, the account is said to be squared up and there is no balance left to debit or credit by the end of the period.

If the totals on the two sides of an account are unequal, then the debit side of an account will be greater or the credit side will be greater.

If the debit side total of an account is greater than the credit side, the balance is known as **Debit Balance**, otherwise it is known as **Credit Balance**.

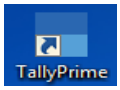

The balance of an account at the end of the period is termed as the **Closing Balance of the Account**.

If the account is real (related to assets or) personal (related to person), the closing balance is carried down to the succeeding period as on opening balance but if the account is nominal (related to expenses, losses and income) such balance is transferred to Profit & Loss Account.

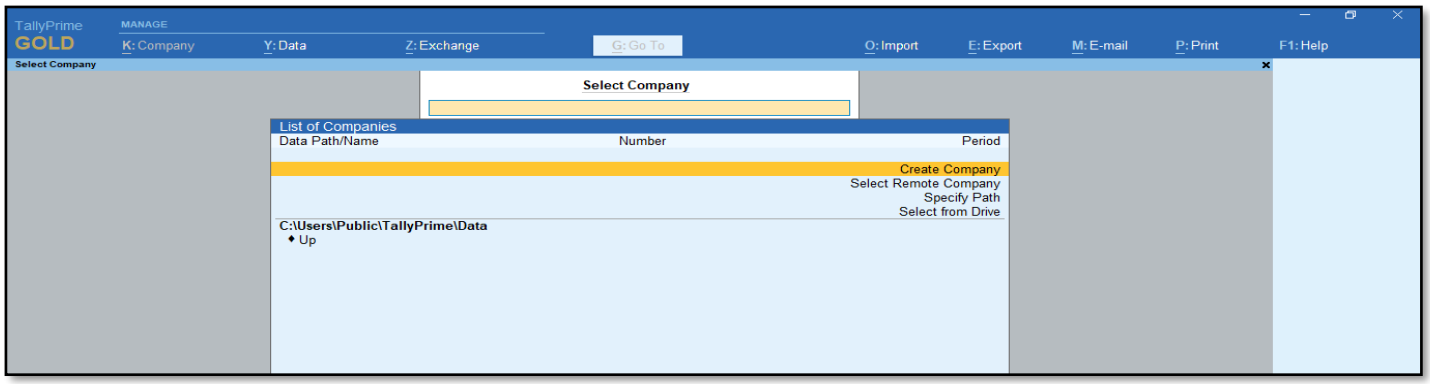

If the balance is a debit balance it is carried down (C/D) or carried forward (C/F) to the succeeding period as “To balance b/d (brought down)" on the debit side of the account. On the other side if the balance is credit balance then it is brought to the credit side of the account as "By balance b/d (brought down)".

What are GST rate slabs?

The Goods and Services Tax (GST) will be levied at multiple rates ranging from 0 per cent to 28 per cent. GST Council finalized a four-tier GST tax structure of 5%, 12%, 18% and 28%, with lower rates for essential items and the highest for luxury and de-merits goods that would also attract an additional cess.

Service Tax will go up from 15% to 18%. The services being taxed at lower rates, owing to the provision of abatement, such as train tickets, will fall in the lower slabs.

In order to control inflation, essential items including food, which presently constitute roughly half of the consumer inflation basket, will be taxed at zero rate.

The lowest rate of 5% would be for common use items. There would be two standard rates of

12per cent and 18 per cent, which would fall on the bulk of the goods and services. This includes fast-moving consumer goods.

Highest tax slab will be applicable to items which are currently taxed at 30-31% (excise Duty plus VAT).

Ultra-luxuries, demerit and sin goods (like tobacco and aerated drinks), will attract a cess for a period of five years on top of the 28 per cent GST

The collection from this cess as well as that of the clean energy cess would create a revenue pool which would be used for compensating states for any loss of revenue during the first five years of implementation of GST.

Finance minister said that the cess would be lapsable after five years.

The structure to agree is a compromise to accommodate demand for highest tax rate of 40% by states like Kerala. While the Center proposed to levy a 4% GST on gold but the final decision on this was put off. During a press conference, finance minister Mr Jaitley said, "GST rate on gold will be finalized after the fitting to the approved rates structure of all items is completed and there is some idea of revenue projections".

The principle for determining the rate on each item will be to levy and collect the GST at the rate slab closest to the current tax incidence on it.

The GST will subsume the multitude of cesses currently in place, including the Swachh Bharat Cess, the Krishi Kalyan Cess and the Education Cess. Only the Clean Environment Cess is being retained, revenues from which will also fund the compensations.

Which of the existing taxes are proposed to be subsumed under GST?

GST is set to replace various taxes as mentioned below:

Taxes currently levied and collected by the Center	State taxes that would be subsumed under the GST
a. Central Excise duty b. Duties of Excise (Medicinal and Toilet Preparations) c. Additional Duties of Excise (Goods of Special Importance) d. Additional Duties of Excise (Textiles and Textile Products) e. Additional Duties of Customs (commonly known as CVD) f. Special Additional Duty of Customs (SAD) g. Service Tax h. Central Surcharges and Cesses so far as they relate to supply of goods and services	a. State VAT b. Central Sales Tax c. Luxury Tax d. Entry Tax (all forms) e. when levied by the local bodies) Entertainment and Amusement Tax (except f. Taxes on advertisements g. Purchase Tax h. Taxes on lotteries, betting, and gambling i. State Surcharges and cesses so far as they relate to supply of goods and services

The GST Council shall make recommendations to the Union and States on the taxes, cesses and surcharges levied by the Center, the States and the local bodies which may be subsumed in the GST.

▪ What will be status of Tobacco and Tobacco products under the GST regime?

Tobacco and tobacco products would be subject to GST. In addition, the Center would have the power to levy Central Excise duty on these products.

Commodities Proposed to be kept outside GST	Alcohol for human consumption, Petroleum Products viz. petroleum crude, motor spirit (petrol),

	high speed diesel, natural gas and aviation turbine fuel & Electricity.
Taxation of such Commodities in GST Regime	The existing taxation system (VAT & Central Excise) will continue in respect of the above commodities

- **What type of GST is proposed to be implemented?**

It would be a dual GST with the Center and States simultaneously levying it on a common tax base. The GST to be levied by the Center on intra-State supply of goods and/or services would be called the Central GST (CGST) and that to be levied by the States would be called the State GST (SGST). Similarly Integrated GST (IGST) will be levied and administered by Center on every inter-state supply of goods and services.

- **Which authority will levy and administer GST?**

Center will levy and administer CGST & IGST while respective states will levy and administer SGST.

- **How a particular transaction of goods and services would be taxed simultaneously under Central GST (CGST) and State GST (SGST)?**

The Central GST and the State GST would be levied simultaneously on every transaction of supply of goods and services except the exempted goods and services, goods which are outside the purview of GST and the transactions which are below the prescribed threshold limits. Further. 8 both would be levied on the same price or value unlike State VAT which is levied on the value of the goods inclusive of CENVAT. While the location of the supplier and the recipient within the country is immaterial for the purpose of CGST, SGST would be chargeable only when the supplier and the recipient are both located within the State.

Illustration I: Suppose the rate of CGST is 9% and that of SGST is 9%. When a wholesale dealer of steel in Uttar Pradesh supplies steel bars and rods to a construction company which is also located within the same State for, say Rs. 100, the dealer would charge CGST of Rs. 9 and SGST of Rs. 9 in addition to the basic price of the goods.

He would be required to deposit the CGST component into a Central Government account while the SGST portion into the account of the concerned State Government. Of course, he need not actually pay Rs. 18 (Rs.9 + Rs. 9) in cash as he would be entitled to set-off this liability against the CGST or SGST paid on his purchases (say, inputs). But for paying CGST he would be allowed to use only the credit of CGST paid on his purchases while for SGST he can utilize the credit of SGST alone.

In other words, CGST credit cannot, in general, be used for payment of SGST. Nor can SGST credit be used for payment of CGST.

Illustration II: Suppose, again the rate of CGST is 9% and that of SGST is 9%. When an advertising company located in Mumbai supplies advertising services to a company manufacturing soap also located within the State of Maharashtra for, let us say Rs. 100, the ad company would charge CGST of Rs. 9 as well as SGST of Rs. 9 to the basic value of the service. He would be required to deposit the CGST component into a Central Government account while the SGST portion into the account of the concerned State Government. Of course, he need not again actually pay Rs. 18 (Rs. 9 + Rs. 9) in cash as it would be entitled to set-off this liability against the CGST or SGST paid on his purchase (say, of inputs such as stationery, office equipment, services of an artist etc.). But for paying CGST he would be allowed to use only the credit of CGST paid on its purchase while for SGST he can utilize the credit of SGST alone.

In other words, CGST credit cannot, in general, be used for payment of SGST. Nor can SGST credit be used for payment of CGST.

- **What is IGST?**

Under the GST regime, an Integrated GST (IGST) would be levied and collected by the Center on inter State supply of goods and services Under Article 269A of the Constitution, the GST on supplies in the course of inter-state trade or commerce shall be levied and collected by the Government of India and such tax shall be a portioned between the Union and the states in the manner as may be provided by Parliament by law on the recommendations of the Goods and Services Tax Council.

- **How GST returns will be filed?**

For properly updating the invoices, Indian taxpayers and businesses have to file certain returns with the Government. These returns have to be mandatorily filed as any noncompliance towards the same may lead to disallowance of input tax credit, apart from attracting penalties and interests, etc. Proper filing or information and passing the same in the returns is o mandatory process for smooth flow of credit to the last recipient.

The returns have been designed so that all transactions are in sync with each other and that no transaction is left unattended between the buyer and the seller. All the data is stored in GSTN, which can be accessed by the users/taxpayers anytime online.

Depending on the type of GST registration (Regular, Composite, etc) businesses will need to file up to 37 GST returns every year. These returns can be led using any Tally Software.

- **What would be the role of GST Council?**

A GST Council would be constituted comprising the Union Finance Minister (who will be the Chairman of the Council), the Minister of State (Revenue) and the State Finance/Taxation Ministers to make recommendations to the Union and the States on

- The taxes, cesses and surcharges levied by the Center, the States and the local bodies which may be subsumed under GST,
- The goods and services that may be subjected to or exempted from the GST)
- The date on which the GST shall be levied on petroleum crude, high speed diesel, motor sprit

(Commonly known as petrol), natural gas and aviation turbine fuel.

- Model GST laws, principles of levy, apportionment of IGST and the principles that govern the place of supply,
- The threshold limit of turnover below which the goods and services may be exempted from GST
- The rates including floor rates with bands of GST)
- Any special rate or rates for a specified period to raise additional resources during any natural calamity or disaster,
- Special provision with respect to the North East States, J&K, Himachal Pradesh and Uttarakhand, and
- Any other matter relating to the GST, as the Council may decide.

- **Who is liable to pay GST under the proposed GST regime?**

Under the GST regime, tax is payable by the taxable person on the supply of goods and/or services. Liability to pay tax arises when the taxable person crosses the threshold exemption, i.e. Rs. 10 lakhs (Rs. 5 lakhs for NE States) except in certain specified cases where the taxable person is liable to pay GST even though he has not crossed the threshold limit. The CGST / SGST is payable on all intra-State supply of goods and/or services and IGST is payable on all inter. State supply

of goods and/or services. The CGST/SGST and IGST are payable at the rates specified in the Schedules to the respective Acts.

- **What are the benefits available to small taxpayers under the GST regime?**

Tax payers with an aggregate turnover in a financial year up to [Rs.10 lakhs) would be exempt from tax.

[Aggregate turnover shall include the aggregate value of all taxable and non-taxable supplies, exempt supplies, and exports of goods and/or services and exclude taxes viz.GST]

Aggregate turnover shall be computed on all India basis. For NE States and Sikkim, the exemption threshold shall be (Rs. 5 lakhs). All taxpayers eligible for threshold exemption will have the option of paying tax with input tax credit (ITC) benefits. Taxpayers making inter-State supplies or paying tax on reverse charge basis shall not be eligible for threshold exemption.

- **How will the goods and services be classified under GST regime? What is HSN under GST?**

HSN (Harmonized System of Nomenclature) code shall be used for classifying the goods under the GST regime. Taxpayers whose turnover is above Rs. 1.5 crores but below Rs. 5 crores shall use 2 digit code and the taxpayers whose turnover is Rs.5 crores and above shall use 4 digit code. Taxpayers whose turnover is below Rs. 1.5 crores are not required to mention HSN Code in their invoices. Services will be classified as per the Services Accounting Code (SAC).

Read about HSN and SAC.

- **How will imports be taxed under GST?**

Imports of Goods and Services will be treated as inter-state supplies and IGST will be levied on import of goods and services into the country. The incidence of tax will follow the destination principle and the tax revenue in case of SGST will accrue to the State where the imported goods and services are consumed. Full and complete set-off 14 will be available on the GST paid on import on goods and services.

G-TEC JAINx EDUCATION

- **How will Exports be treated under GST?**

Exports will be treated as zero rated supplies. No tax will be payable on exports of goods or services, however credit of input tax credit will be available and same will be available as refund to the exporters.

- **What is the scope of composition scheme under GST?**

Small taxpayers with an aggregate turnover in a financial year up to (Rs. 1 Crore) shall be eligible for composition levy. Under the scheme, a taxpayer shall pay tax as a percentage of his turnover during the year without the benefit of ITC.

The floor rate of tax for CGST and SGST shall not be less than (1%). A tax payer opting for composition levy shall not collect any tax from his customers. Tax payers making inter-state supplies or paying tax on reverse charge basis shall not be eligible for composition scheme. Please note that the composition scheme is optional.

➢ TRACKING NUMBER:-

TRACKING NUMBER IS THE IMPORTANT LINK BETWEEN ACCOUNTING AND INVENTORY DETAILS WHEN GOODS DO NOT ACCOMPANY INVOICE. IF TRACKING NO. IS NOT ACTIVATED, THE INVENTORY DETAILS YOU GIVE IN ACCOUNTING VOUCHERS LIKE SALES, PURCHASE, DEBIT OR CREDIT NOTES AFFECTS STOCK IMMEDIATELY (IN ADDITION TO AFFECTING ACCOUNTS) AS THE SOFTWARE TREATS THAT GOODS MOVED IN/OUT ALONG WITH THE ACCOUNTS VOUCHERS.
WHEN TRACKING NO. IS ACTIVATED, THE SOFTWARE PRESUMES THAT MOVEMENT OF GOODS ARE NOT ACCOMPANIED WITH INVOICE (WHICH WILL FOLLOW LATER). SO, IF YOU REQUIRE SEPARATE CHALLAN AND BILL TO BE WHICH WILL MAKE AVAILABLE DELIVERY NOTE **(F8)** AND RECEIPT NOTE **(F9)**

FOLLOWING EXAMPLE WILL EXPLAIN THE ACTUAL FUNCTIONALITY OF TRACKING NUMBER:-

SUPPOSE YOU ARE SELLING 10 NOS OF MAXELL COM 110/- TO KRISHNA COMPUTERS ON 30.4 AND YOU WANT A DELIVERY CHALLAN TO ACCOMPANY THE GOODS. YOU SHOULD MAKE THE ENTRY IN DELIVERY NOTE (UNDER F8: SALES), WHICH WILL REFLECT STOCK OUT (BUT WILL NOT EFFECT ACCOUNTS, I.E., NEITHER KRISHNA. COMPUTER'S ACCOUNT WILL BE DEBITED NOT SALES ACCOUNT WILL BE CREDITED) AND GIVE A NEW TRACKING NUMBER AT THE TRACKING NO. FIELD (SAY VOUCHER (OR INVOICE) UNDER F8: SALES UNDER TRACKING NO., SELECT THE TRACKING NUMBER OF DELIVERY CHALLAN DATE 30.4 (K/144) THAT UPDATE ACCOUNTS ONLY BUT NOT STOCK (WHICH ALREADY TOOK EFFECT ON 30.4).

IF INSTEAD OF SELECTING THE EARLIER TRACKING NO. (K/144 IN THIS INSTANCE), YOU SELECT NOT APPLICABLE, TALLY WILL ONCE AGAIN UPDATE THE STOCK, I.E., DOUBLE STOCK OUT WILL BE SHOWN, ONCE ON 30.4 WHEN YOU ENTERED IN DELIVERY NOTE AND AGAIN ON 1.5WHEN YOU ENTERED INVOICE WITH TRACKING NO. AS NOT APPLICABLE.

HOWEVER, IF TRACKING NO. IS ACTIVATED, BUT YOU JUST INVOICE (AND NO CHALLAN), YET AFFECTING BOTH ACCOUNTS & STOCK SIMULTANEOUSLY, ENTER VOUCHER/INVOICE AND AT TRACKING NO. SELECT NOT APPLICABLE, WHICH WILL UPDATE STOCK AND ACCOUNTS SIMULTANEOUSLY WITHOUT THE NEED OF ENTERING SEPARATE INVENTORY VOUCHER.

- ✓ **FOLLOWING EXAMPLE SHOWS PURE INVENTORY TRANSACTIONS :-**
- ✓ **ENTER THE FOLLOWING TRANSACTION IN INVENTORY VOUCHER**

▪ RECEIPT NOTE:

WHEN YOU PURCHASE GOODS, YOU HAVE TO PASS A PURCHASE VOUCHER BUT IF YOU HAVE NOT RECEIVED A BILL THEN YOU CAN SIMPLY PASS A **RECEIPT VOUCHER** WHICH UPDATES THE STOCK OF THAT ITEM WITHOUT AFFECTING THE FINANCIAL ACCOUNTS. WHEN YOU RECEIVE THE BILL YOU CAN ADJUST IT AGAINST THIS **RECEIPT NOTE** BY PRESSING **ALT+F9** KEY.

➢ PHYSICAL STOCK VOUCHER:-

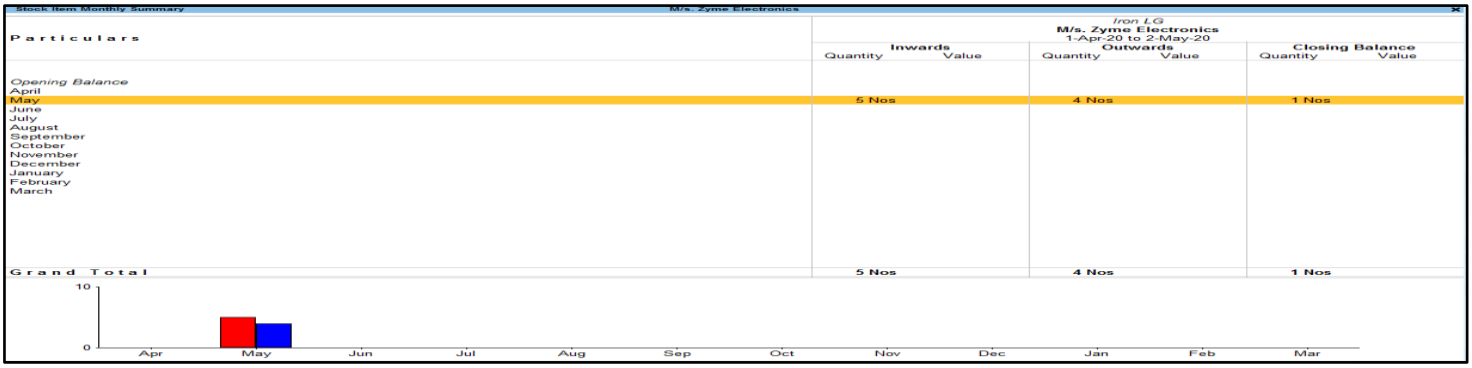

The actual stock verification in the business is very difficult i.e. the stock mentioned in books and stock in Godown should be equal ex. If you bought 6 kg of sugar out of which 5 kg is sold out & you may have only 800 gms left. To adjust such kind of problem Tally has introduced a Vouchers called Physical Stock Voucher. On Physical Verification when you find that there is 800 gms of Sugar (instead of 1 kg as per books) You make a Physical Stock Voucher on that day for 800 gms& the stock for subsequent period will be considered as 800 gms. & adjust the Stock (Adjustment of 200 gms done)

Negative Balances: The problem of negative stock also appears in most business concerns i.e. your book shows more quantity issued than that has come in.

Bill-Wise Details

If you make an entry to a ledger that needs Bill Wise Details, you have to give the details of the bill at the voucher entry itself. Where you can see the details of bills, specific credit periods and get the correct outstanding result (Balance) of each ledger.

Where there is large no's of entries it becomes difficult to match a payment to an Invoice.

So the details of creditors and debtors are maintained at the Invoice level this is called Bill-Wise Accounting.

COST CENTER

While Accounts ledger provides information about the nature of transaction, it does not identify the departments or divisions involved with it. Cost Centers (and Categories) gives additional dimension to the transaction. Cost Center is any unit in an organization to which costs can be allocated. Cost Centers maybe various Branches, Departments, Projects, Products, Persons etc.

You can organize Cost Center into numerous (Primary & Secondary) levels, in hierarchical structure without any limit.

For example, you may analyze the Salary Expenses according to Branches and Departments. Simultaneously you want the Salary Expenses to be split up into Ledger Accounts like Basic. DA, TA, etc. So that you know the department-wise break-up of these elements. In such situation, only Ledger Accounts are insufficient as they will not provide you two-way analysis. Such concept may be extended to any Income or Expense, Spanning Over number of Cost (or Profit) Centers.

Following example will better clarify the utility of Cost Centers.

1) Head Office

2) Branch Office

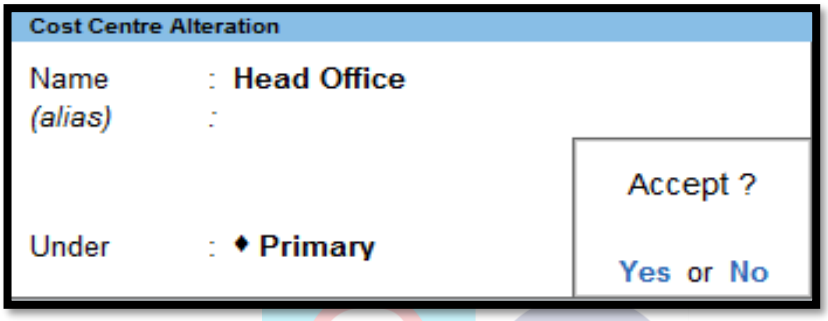

3) Factory 1

4) Factory 2

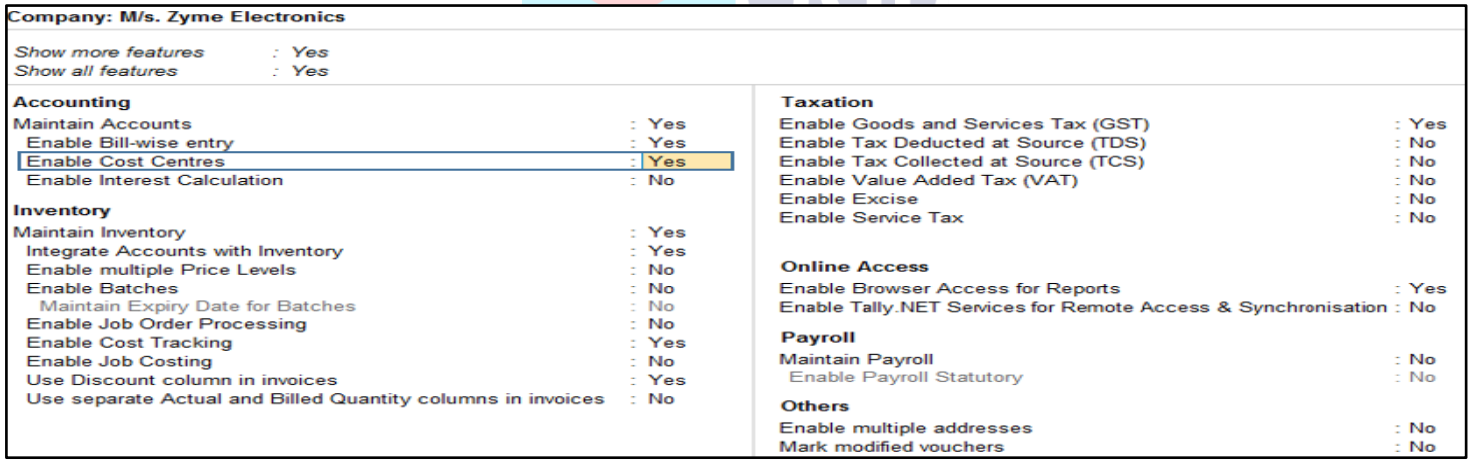

And you are interested to get Ledger wise as well Office/Factory wise breakup of expenses figures. For this purpose, Create Cost Centers for each Office/Factory and while entering such expenses in Vouchers, allocate to respective Cost Centers. Then you will be able to get:- Ledger Account wise Figures Cost Center wise Figures Cost Center wise breakup of each Ledger Account wise breakup of each Cost Center

Normally. Cost Centers are used to allocate Revenue Accounts (Expenses & Income), you can even allocate non-revenue account (for example, Capital Project Cost, Fixed Assets etc.) to Cost Centers.

Cost Categories

Tally gives substantial flexibility to allocate ledger account figures to Cost Centers. However some organization may need to allocate the expenses in more than one dimension. If your requirement of allocation of Cost Center is more demanding, then you may use Cost Categories. Cost Categories allow parallel sets of Cost Centers to allocate.
For Example.
A Company may allocate an amount independently to Salesman, Products & Agents as follows:

Cost Category	Salesman	Products	Agents
Cost Centers	Mr. A	ITEM 1	ABC
	Mr. B	ITEM 2	XYZ

Having done like this, now you will get reports of allocated amount accordingly

Note: - Normally, most of the organization will find Cost Centers alone sufficient for cost allocation and would not require Cost Categories, Before opting Cost Category, weigh its merits & complexity as it will increase data entry. If Cost Centers alone serves your purpose, avoid Cost Category.

PRE-CLOSURE ORDER

Due to reasons like cancellation of orders or delay in acceptance orders may have to be closed in advance, without being executed. The general procedure followed while purchasing goods is to place the order and obtain an invoice for the goods received. For sale of goods, the order is received and sales invoice is raised for the goods delivered. In general these orders are executed fully. At times, there are instances where an order gets cancelled or executed partially. Pre-closure of Order is a feature introduced in Tally Prime to track orders that have been closed without being fully executed. This helps in generating accurate inventory reports.

CHEQUE PRINTING

TO ACTIVATE CHEQUE PRINTING

1) **GATEWAY OF TALLY -----> ALTER -----> LEDGER ----> HDFC BANK ----> SET THE FOLLOWING OPTIONS TO 'YES'**

- **SET CHEQUE PRINTING CONFIGURATION**

- **COMPANY NAME ON CHEQUE :**

TO PRINT THE COMPANY NAME ON THE CHEQUE FOR SIGNATURE PURPOSES, MENTION THE NAME OF THE COMPANY (FOR EXAMPLE, M/S. ZYME ELECTRONICS). IF YOU DO NOT WANT TALLY PRIME TO PRINT THE NAME, YOU CAN LEAVE IT BLANK. MANY BANKS ISSUE CHEQUE WITH YOUR COMPANY NAME PRINTED.

- **NAME OF BANKS :**

YOU WILL HAVE TO FILL IN THE DIMENSIONS OF THE CHEQUE. TALLY PRIME ACCEPTS USER DEFINED CHEQUE DIMENSIONS. TAKE THE BANK'S CHEQUE BOOK AND MEASURE THE DIMENSIONS OF A CHEQUE LEAF CAREFULLY IN MILLIMETERS AND FILL IN THE ABOVE FORM. YOU MAY NEED TO CORRECT IT AFTER TRYING OUT A COUPLE OF CHEQUE SO THAT THE POSITIONING IS ACCURATE. THE PLACING OF THE CHEQUE IN THE PRINTER ALSO DETERMINES THE PRINTING. TO AVOID MISTAKES TRIAL COULD BE MADE ON PHOTOCOPIES OF A CHEQUE BEFORE USING AN ACTUAL CHEQUE FILL
